Durrant's Plight Is Worse.

Pointed Testimony Is Going In.

The Net Being Woven in the Lamont Case.

Attorney Quinlan Again Tells of the Meeting.

SAN FRANCISCO, May 3 —The preliminary examination of Theodore Durrant for the murder of Blanche Lamont was resumed this morning.

The result was damaging to the defendant, although his counsel tried hard to impeach the credibility of the prosecution's witnesses.

The testimony was a repitition of that given at the inquest.

Martin Quinlan, attorney, again positively identified Durrant as the man he had seen with the girl resembling Blanche Lamont going toward the church at 4:20 o'clock on the afternoon of April 3d.

David Clark, with whom Quinlan was waiting to keep an appointment, corroborated Quinlan's testimony and enabled him to fix the date precisely because of legal business they had transacted.

The janitor of the church discredited Durrant's statement to Organist King that he had been repairing gaspipes when he came down from the tower pale, sick and weak.

The janitor said the gas batteries were in good order March 31st, and there was nothing for Durrant to fix April 3d.

Severe cross-examinations only made the witnesses more positive in connecting Durrant with Blanche Lamont's murder.

The Indictments Against the Meadowcrofts Disposed Of.

CHICAGO, May 3.—Judge Windes today discharged Charles J. and Frank R. Meadowcroft, insolvent bankers, from indictment on charges of receiving money when they knew the bank was insolvent.

No Danger, Though, as the Treaty Is to Be Ratified.

SHANGHAI, May 3 —In accordance with the special imperial edict issued to prevent the possibility of the Japanese entering Pekin, the Chinese have cut the river embankment near Pekin.

Miles of territory have been flooded and hundreds of Chinese drowned.

THE DIPLOMATIC END OF IT.

PARIS, May 3 —The Japanese Minister, in an interview published in *Figaro* today, is quoted as saying that the intervention of other powers in the arrangements for peace arrived at between China and Japan is only a small difficulty.

China, he adds, has every interest to ratify the treaty and leave Japan to arrange matters with the European powers.

The Minister also said the Japanese must desire the payment of the indemnity and the commercial concessions upon the part of China to Japan.

LOTS OF LAWYERS.

Twenty-one Answer "Ready" in Court.

They Are All Engaged in the Turner Land Case

An interesting case was called up for hearing before Judge Frick this morning. It was the suit of J. J. Fagan against J. F. Turner, the notorious land schemer who has figured so prominently in the courts across the bay. The plaintiff seeks to foreclose a mortgage of $12,500. On its face the case appeared to be a simple foreclosure suit, but when the trial was called it was found that there was to be a hot legal battle, in which some of the prominent lawyers of the State were interested.

Turner was one of the shrewdest land schemers in the State. He used to purchase property and have the title placed in the name of his typewriter, Lizzie O'Donnell. When he was finally exposed it was found a hard matter to get at his property. Fagan proposed to have his money on the mortgage held by him, and he rushed into court with a suit. When his case was called, twenty-one lawyers answered and announced that they proposed to take part in the trial. It was found that the property covered by the mortgage is located in five counties, and this made additional complications.

The lawyers who answered for their clients in the case were as follows: C. P. Robinson, Morrison, Stratton and Forester for Defendant Simonds; Denson, Reddy, Campbell and Metson for Megginson; Page, Eells and Wheeler for Hutchinson and the Bather Bank; John Yule for the Oakland Bank of Savings; W. S. Goodfellow for the German Savings and Loan Society; John M. Chretien for J. O. Rice; John B. Mhoon for the State University; and Crittenden, Foote and Van Wyck.

This was an array of legal talent that was hardly expected by Judge Frick. His Honor came to the conclusion that there was going to be a legal battle that would take up much time. The lawyers represented parties who had some interest in the disputed lands. One of the attorneys announced that he could not very well proceed with the case because his client was in jail, and he did not know when he would get out. After much discussion it was agreed that the case should be continued for a time, when all the attorneys could get ready for the trial.

BLOWN UP.

Powder Mills Explode in an Eastern Town.

Fire Is Communicated to the Woods Near By.

Five Men Believed to Have Perished in the Disaster.

SOUTH ACTON, Mass., May 3 —Three mills of the American Powder Company here blew up this morning one after the other.

In fifteen minutes five persons are believed to have been killed.

The woods close by the mills were set on fire and burned fiercely, threatening the biggest storehouse containing 20,000 pounds of powder and preventing the saving of the property.

Fifty men were employed in the mills.

After the first explosion the employes in the Corning Mill, about forty in number, rushed from the building and escaped before the flames spread to the mill.

There were ten mills separated and inclosed by high board fences.

The explosion of the first mill set fire to the surrounding fence, and the flames spread to the second and third mills.

The list of dead is as follows: Charles O'Neill Jr., Maynard, Mass., unmarried; Nelson Morris, Acton, leaves a widow and several children, Frederick K. Winslow, South Acton, unmarried, Charles Estes, South Acton, unmarried, A. Estes, South Acton, leaves a widow and six children.

A STEAMER ON FIRE.

She Burns to the Water's Edge, Cargo and All.

PORT COLBORNE, Ont., May 3 —The schooner J. S. Richards, which arrived here today, reported sighting a large steamer on fire on the beach at Morgan's point.

The steamer is the N. E. Fairbank, due here last night loaded with 90 400 bushels of corn, bound from Chicago to Ogdensburg, owned by John H. Barton of Cleveland and valued at $ 0 000.

The Fairbank's mate and crew arrived here in a ship's yawl some time after the schooner Richards.

The mate states the Fairbank went ashore about 2 o'clock this morning.

All hands were put to work throwing the corn overboard.

While thus engaged fire was discovered in the forecastle forward.

The steamer burned to the water's edge.

The captain remained on shore near the wreck.

Gresham Is Better.

WASHINGTON, May 3 — Secretary Gresham passed a restless night and today is much prostrated. TRYING AGAIN.

Twenty-third Avenue Saloon Men Rampant.

They Will Try Their Luck Before the New City Council.

The old fight of residents of the Twenty-third avenue district against the licensing of saloons in that neighborhood, will be reopened tonight with a meeting of the License Committee of the Council.

Seven saloonkeepers have filed their applications for licenses with the City Clerk, and they are for locations all within the Twenty-third avenue district. The petitions and their respective places of business are as follows: Gus Williams, 11 8 Twenty-third avenue; Charles Koenig and Ben Jones, 603 Twenty-third avenue; Frank Hudning, East Eleventh street and Park avenue; R. Daeman, 1148 East Fourteenth street, L. Jurgensen, 1103 East Twelfth street; Walter A. Cook, 561 Park avenue.

Several of the petitioners have been arrested a number of times for alleged violations of the Liquor License law and a number are now conducting what are called "temperance saloons" in the places for which they seek liquor licenses.

This is the first time since the new Council was inaugurated that a concerted effort has been made by the Twenty-third avenue saloon men to secure the much coveted authorization to sell "malt, fermented or spirituous alcoholic liquors."

Their applications will undoubtedly reopen the fight that has for several years past been made by the Twenty-third avenuites against the saloons in that neighborhood. A few years ago the battle was waged so vigorously that a number of the saloons were forced to close. There are none now in operation in that district except such as are conducted under the guise of "temperance" resorts.

It is probable that both sides will be well represented before the committee when the applications come up for consideration.

A Vigorous Conference Over the China Basin.

Harbor Commissioner Colnon Anxious to Settle Matters.

SAN FRANCISCO, May 3 —The Harbor Commissioners, with Governor Budd and Mayor Sutro, met with the representatives of the Valley Road this morning to consider the amendments to the lease of China Basin to the Valley Road.

Sutro attacked the terms of the lease, and incidentally the sincerity of the opposition road, saying the China Basin could be transferred to the Southern Pacific by the Valley Road in forty-eight hours.

Attorney Preston of the Valley Road said any person making such a statement was a blank fool.

The Mayor made no response to this, but introduced a number of technical amendments preventing the Valley Road from co-operating with any other railroad.

President Colnon expressed disapproval of the apparent attempt to obstruct the new road.

He said he is anxious to see the work completed.

No conditions should be imposed on the projectors which would hamper them in the work of completing the Valley Road.

SHE WAS SPEEDY.

Wolferdingen's Wife Trotted too Fast for Him.

He Is Praying for Divorce on the Grounds of Desertion.

Charles E. Wolferdingen Jr. brought an action in the Superior Court this morning to secure a divorce from Edith Wolferdingen on the ground of desertion. A couple of years ago he was married in this city by Charles E. Snook, then Justice of the Peace. Today Mr. Snook appears in the role of an attorney to secure a divorce for the disappointed young man.

Mr. Wolferdingen has had a matrimonial experience that he will long remember. He was celebrating his honeymoon, and the future seemed to be very bright. At the end of two weeks his bride suddenly disappeared. The young man was unable to account for her disappearance and he instituted a search. It was learned that Berkeley life was too slow for her, and after she had spent a day in the wharf of San Francisco she came to the conclusion that she could never be contented to settle down in a little cottage in the college town. Wolferdingen was willing to forgive her if she would only return and agree to behave herself. The bride, however, would not yield to his requests, and said that she would rather be in the swim across the bay than a staid young matron at a Berkeley home.

Edith proved to be very capable in her way. She learned how to get fine jewels and good clothes and these things could not be given to her by her husband. Wolfendingen followed her career in San Francisco and after a short time he came to the conclusion that his bride was too speedy for him. In his complaint the young husband was very careful to shade the many faults of his young bride. He simply desires to be free and does not want a judgment for alimony entered against him. There will probably be no contest.

ON A SPREE.

That Is How Begley Lost His Valuables.

The Robbery Theory Is Quickly Knocked Out.

His Watch and Chain Held by a Cabman for Non-Payment.

A reporter of a San Francisco paper told a harrowing tale of highway robbery in his Oakland column this morning. The alleged victim was said to be B. C. Begley, an employe of the Standard Oil Co., who avowed he had been waylaid at Fifteenth and Webster streets by two highwaymen on Tuesday night and robbed of $6, a watch and chain and other valuables. A very little investigation exploded the story in short order.

Begley and a friend went out to make a night of it Tuesday evening, and both landed in the City Prison. The friend was locked up on a charge of drunkenness. Subsequently Begely, who was sober enough to hold himself together, and was not arrested, returned to the jail and secured his friend's release. Both chartered a Gurney, and were driven about town until the driver unceremoniously dumped them into the street for non-payment of fare.

Nothing dazed the couple and they hailed a hack and ordered the driver to deliver them at a resort on the San Leandro road. There Begley and his friend with the hackman, who had been invited to join the party, wandered into the saloon and ordered drinks. When it came to a settlement, Begley and his friend failed to come to the center. The hackman was forced to play the hackman to avoid a row. When the cabdriver saw the turn of affairs and realized that he had been driving a couple of "dead heads" he swore.

He realized that a night's work was ruined unless he could recoup himself in some manner. He noticed the glitter of Begley's watch chain. Without any more ado he simply removed the chain and the watch on the end of it and stated he would hold the jewelry as collateral until the hack bill was settled. Begley and his friend were driven back to Oakland, sadder yet wiser men.

Wednesday night Begley drifted into the police station about midnight and told his story. Begley, however, was too late so far as the police were concerned. They had learned of his escapade the evening before and disposed his wild robbery yarn without a word.

Steady Pressure From Start to Finish.

A Practical Refutation of Theoretical Criticism.

As a practical demonstration of the efficiency of the Alvarado water supply for the extinguishing of fires, no better proof could have been offered than the experience of the Fire Department last night at the fire in the Blake Block.

At the first tap of the bell the operating works of the Oakland Water Company at Alvarado were signaled, and before the Fire Department reached the scene the pumps were at work and the requisite pressure was thrilling through the pipes.

Every stream from the hydrants of the Oakland Water Company worked like a geyser, and in twenty minutes a deluge was pouring over the blazing building.

"I was on the roof of the Davis building," said First Assistant Chief Engineer Myles Doody, "directing a stream from an Eleventh street hydrant into the apartments where the fire originated and before I could get away from it another stream shot up from the open lot in the rear of the building sixty feet below, where Phoenix engine was located working me from need to look. It was one of the prettiest streams I ever saw—steady, strong and spraying like a fountain. I tell you the pressure from the Alvarado hydrants is all right, and it was water promptly applied properly directed and backed by sufficient force that saved Oakland from a big disaster last night."

Other members of the department corroborated Mr. Doody in every particular and all were enthusiastic in praise of the service which the pumps at Alvarado rendered.

One laddie remarked "We'll be sending our books to the junk yard if we get such a pressure right along as we had last night. There's no need for hook and ladders in Oakland when we can throw a stream eighty feet."

As an example of the force and quantity of water that can be used at a fire in the business section of Oakland from the mains of the Oakland Water Company, it may be mentioned that four engines were supplied from one hydrant, and each stream was more than equal to that thrown under similar circumstances at any other fire in the history of Oakland.

The insurance companies are more than satisfied with the results of this first experiment with the water supply of the Oakland Water Company in use at fires. As a consequence of the determination of fact that the Oakland Company's hydrants west of Broadway are efficient for extinguishing fires even without the aid of engines, in that district will be taken with more confidence and probably at a lower rate than in those sections of the city where the old system is still in vogue.

There was every opportunity for a comparison of the force and efficiency of the water supply of the two companies, and it is the universal verdict of experts that the water from Alvarado was in every way a more effective element in extinguishing what promised to be a disastrous conflagration than that of the old system.

"I don't think the property owners west of Broadway need fear the consequences of a fire in the same degree as those whose interests are located east of that thoroughfare," was the comment of an insurance adjuster who was early at the scene of the fire and watched every movement attentively and impartially, having no prejudice except as the interests of his company were concerned.

The results of the fire in the Blake block are eminently satisfactory as far as the protection afforded to that section of the city by the Oakland Water Company is concerned and amply refutes the falsehoods of interested theorists who have claimed that the pumping system would in practice prove futile and inefficient.

It has been demonstrated that the Oakland Water Company's system is by far the best that has ever been introduced in this city, and it has been shown that the method of laying the mains so that every pipe distributes equally by means of interconnections, so that a direct pressure on the big main operates with equal pressure throughout the entire system instantly is the only thoroughly practical and efficient means of operating a water service for the extinguishing of fires in a big city.

It was a practical test and one that cannot be offset or controverted by any amount of sophistical argument or theoretical supposition. The fire in the Blake block was extinguished and the property saved solely by the prompt application of water that had the requisite pressure from apparatus operated on modern improved processes and with modern machinery.

Good Talent Is in the Treble Clef Concert.

A Demand for Seats for "A Country Sport."

Amusements That Are Now Making Bids for Patronage.

Twenty-one of Oakland's leading ladies have become patronesses to the concert to be given by the Treble Clef Quartet tonight in the Congregational Church, and many are making up parties to attend what now promises to be one of the finest concerts given in this city.

The ladies of the quartet—Miss Beatrice Priest, Mrs. A. M. Noble, Miss Jeannette Wilcox and Miss J. E. Birmingham have been singing together since fall under the direction of Mrs. Marriner Campbell, well known by the matrons of Oakland, and have established reputations in many of the cities of this State. San Francisco critics pronounce the work of the quartet as perfect as can be, and the blending of the voices it so good that in unison passages no one voice can be distinguished from the others.

As each of the ladies are eminent soloists, they will be heard alone as well as in the quartets. Miss Priest, so well known to Oakland audiences will sing a bolero, "Andalouse," by Calixa Lavalles, which has never been heard in this city. Mrs. Noble is a stranger to Oaklanders, being a recent comer from Stockton, and will sing Pinsuti's "J'amais tes Yeux." Miss Wilcox recently sang at one of the concerts of the Orpheus Club and made an instantaneous hit by her artistic and perfect rendition of her songs. She will sing "Come to My Heart, My Love," by Jordan. Mrs. Birmingham is another stranger here, but her wonderful low tones are bound to please. She is on the programme for two numbers, "The Quest," by Eleanor Smith, and "Oh, That We Two Were Maying," by Nevin, singing the latter an octave below.

Miss Ina Griffin, the pianist, and Miss Jean Mary Hush, the violinist, will assist the quartet, the former playing two numbers by Chopin, and the latter the overture from *Cavalliera Rusticanna*, by Mascagni.

The concert will begin at a quarter past 8 o'clock.

"A Country Sport."

Peter F. Dailey's sterling company of clever people will be seen at the Macdonough for only two nights—Monday and Tuesday of next week—in that jolliest of up-to-date farces, *A Country Sport.* Dailey has a very humorous vein and he has gathered about him such people as May Irwin, Ada Lewis, John Sparks and a host of minor comedians who are up in their business. The demand for seats is excellent and the company will enjoy two big houses.

The Scheel Concert.

Next Friday night Herr Fritz Scheel will give at the Macdonough a grand operatic concert, which will include selections from *Der Freischutz, Lohengrin, Faust, Il Trovatore,* and other masterpieces. Scheel will render for the first time in Oakland several violin solos. The concert is attracting much attention from the local musicians.

NO NUMBERER.

The Mayor Thinks the Office Not Needed.

Ordinances Discussed in Committee of the City Council.

The Ordinance and Judiciary Committee of the Council discussed at considerable length last evening the proposed ordinance which repeals the privilege extended to James P. Taylor to erect coal bunkers on the City wharf. An opinion from City Attorney Peirsol was read, which held that the action in granting Taylor the right was illegal and the Council was without power to pass the ordinance which gave him the privilege.

Mayor Davie stated that if the ordinance was not rescinded he would never permit, as Mayor of the city and president of the Board of Public Works, to allow a stick of timber to be placed upon the wharf. The ordinance was referred back to the Council without recommendation.

A communication from Mayor Davie was read, recommending that the office of City Numberer be abolished. The Mayor explained that he thought the work hitherto performed by that official could be done by the street department. He said there were three men in the street department who had little else to do but look at each other and draw their salaries.

The Board of Public Works was requested to report to the Council as to the most feasible method of stopping the overflow of water during the winter on San Pablo and Telegraph avenues and Grove streets. The board will also decide as to the best plan to dispose of city garbage.

The committee recommended that Seventeenth street be extended to the bay shore line, as outlined in an ordinance which was very fully discussed before the old Council went out of office.

C. B. Rutherford's application for a position as City Wharfinger was filed.

Mayor Davie's application for the appointment of a clerk, who shall also be City Expert, was laid over.

The State Flower Show.

The eleventh annual flower show of the State Floral Society is in progress in the Maple room of the Palace Hotel, and Oakland is well represented in the display. Among the exhibitors from this side of the bay are the Mountain View Cemetery Association, which displays a grand collection of roses in all colors and varieties; Robert Nunnemacher, who exhibits four families of pansies; E. Gill, who has the largest collection of roses and special seedlings. There are also fine displays by the Fruit Vale Rose Company and the Yokohama Garden association.

Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!

Yale's LaFreckla

Death to Freckles.

Mme. M. Yale was recently asked the question "which of her discoveries she considered the most wonderful." Her reply was as follows: La Frecla, because it unmasked my own face from a filthy mass of freckles and gave me the beautiful rose leaf complexion which you see and which has been admired by the people of every nation. Before I discovered La Frecla I was a freckled face individual disgusted with my own appearance. Today I am the envy of every woman who looks at my skin.

La Frecla will remove any case of freckles in existence and leave the skin as transparent as crystal. One or two applications removes tan and sunburn. It takes from three to nine days to destroy every trace of freckles. It is the only remedy known to the world that does this. Now is the time to use La Frecla, as it strengthens the skin, removes and prevents freckles and sunburn. $1.00 per bottle. Sold by all druggists or

FRIDAY......................MAY 3, 1895

MRS. SARTORIS, the daughter of the late General Grant, having had a rather uncomfortable experience with a British husband, is about to wed a Confederate general. It is well that the Blue and the Gray should come together. As General Grant gave the Confederate general a sound military thrashing, there is every reason to suppose that he has profited by it, and will make a good husband for the daughter of the greatest Union soldier that ever led the armies of this country to victory.

THE election of Dr. J. K. McLean as pastor of Plymouth Avenue Church had been anticipated for some time. The church has long needed a leader. Few men would care, after building up one of the strongest churches in the country, to take in hand such a weakling. But if any man can make this little church strong, it will be the man who will become identified with it a few months hence. It is probable that some of his old parishoners will follow him to this new field. A great deal of work has been cut out for the future of this indefatigable worker and successful leader.

REV. GEORGE D. HERRON, who has been heard in Southern California, is coming back to these parts to "trouble Israel" again. A project is on foot to invite Professor Herron to lecture in one of the largest halls in San Francisco, and to make the lecture free to all workingmen. This invitation is to take the form of a popular testimonial of respect and esteem. Dr. Brown will probably have his sack of rocks ready. Professor Herron will also deliver one or more lectures in this city. There might be a sort of fraternal gathering of missiles for the occasion. "Oh that my minister were a gentleman," said a well known lady after listening to an abusive tirade against Dr. Herron.

Defining a Monetary Issue.

Comptroller Eckels, at the recent banquet of business men in Detroit, drew the lines very sharply between bimetallists and monometallists. He advocates the larger use of silver and maintains that every man who honestly believes in a sound currency will be driven into the camp of the bimetallists.

"The contention which is now made by the single silver standard adherents reduced to its last analysis is silver fiatism pure and simple. It differs in degree only, and not in principle, from the contention of twenty years ago of the advocates of the unlimited issue of irredeemable greenbacks, and from that issue of the fiat currency of the period of the Continental Congress and the era of colonialism. It finds counterpart in the argument of the French revolutionists who bankrupted the citizens of France with their millions of worthless assignments and mandats; it resembles the reasoning of King Alexis of Russia when, more than three centuries ago, he impoverished his subjects and fomented civil strife by undertaking to force upon them copper copeks of the same form and value as a substitute for silver ones."

More Than a Political Organ.

The *Times-Herald* of Chicago, which formerly represented the Democratic party in that city, became an independent paper, with Republican leanings, on its purchase by Mr. Kholsaat. He invested more than a million dollars in that paper. One of the boldest strokes of business was to change its politics, or rather to place it on an independent basis. A few years ago a radical change like that would have been thought equivalent to the undoing of a newspaper. But the strong man knew his ground.

This change is another illustration of the fact that the mere party organ has much less power than formerly. It is seldom that a great newspaper has undergone such a radical change of base with so little prejudice to its interests. Just now there is no Democratic organ in Chicago, unless one has been established within a week. All the great newspapers of late years have been seeking a broader and more independent basis. They reflect the views of all parties while having a closer adherence to the principles of some one of them. One could hardly imagine, for instance, that it would be possible for the New York *Tribune* to change its base without being crippled. Yet the *Herald* has always been an independent concern and has in that way reflected the views of all parties. The *Times-Herald* of Chicago will be a power in the next Presidential canvass.

The Mayor's Improvement Policy.

If the Mayor keeps up to the key note he has already struck, there will be lively times in Oakland during his term of office. Even if some of his projects should fail, that would be better than to have no plans at all. This city has suffered for lack of any well defined policy. Nearly all citizens favor municipal improvements. They divide on the questions of what lines of progress are most desirable. The Mayor proposes to improve the small parks of the city. These are mere breathing spaces of a single block here and there. A few trees and shrubs will add somewhat to their attractiveness. These squares ought not to be overgrown with shade trees or shrubbery. They are sought as sunny openings. The more sunlight let into them the better. If the parks are converted into shrubbery gardens, their most important use would be greatly abridged. The climate here does not demand dense shade. What is most needed is sunlight in open spaces. Ornamental shrubs may be desirable, provided they do not encroach upon openings where the sun is always better than shade.

While the Mayor is turning his attention to these city squares, it might be well to call his attention to the water park of which so much has been expected and so little realized in this city. The plans of improvement originally contemplated, do not find favor with perhaps a majority of citizens. The work was stopped. But all along there has been a general agreement that Lake Merritt should be deepened without destroying any of its natural features. There was also a general agreement that there should be a broad carriage way or boulevard around the water park. The later opinion as it found expression was that this avenue should be constructed along the margin of the lake rather than in it, and that adjoining property should pay a part of the cost. These points were pretty well settled after a great deal of discussion and some harsh criticism touching earlier methods of improvement. No public improvement has ever been suggested for this city of more importance than this water park. It is just now in a condition of absolute neglect.

It would be difficult to mention a city of the size of Oakland that has not a considerable area devoted to a public park. The substitute for a park in Oakland has been accepted in the gift of Lake Merritt. It cost the city nothing to acquire possession. It is every year becoming less attractive because of neglect. There is today a considerable amount of foul drainage entering the lake that ought to be turned away. There are thousands of cubic yards of mud that should be removed. There ought to be many acres of land contiguous to the lake acquired for park purposes.

If Oakland is ever to have a park befitting the city, it is time that some plans for it were settled. If the Mayor can formulate a better plan than has been published, the sooner that is done the better. The improvements would cover a number of years. They can be made in a way not to become a burden to taxpayers. Such an improvement goes well with a better system of street improvements. Oakland today has no park. Lake Merritt has never been a substitute for one, and never will be until the mud is removed and an avenue is constructed around it. Somewhere a public park ought to fit in to the Mayor's policy of public improvements.

At Home and Abroad.

There is just now a disposition to congratulate the State on its good standing abroad. The bonds of leading cities are eagerly sought as safe investments. California has no large debt. Even municipal debts are comparatively small. It is a pity that State pride does not have a stronger business application. A few years ago certain articles were manufactured in this State that were sold abroad on the home stamp. For instance, California blankets were sold as such, and were sought in the Eastern markets. It was not necessary to put any foreign stamp on these home made goods. But Californians themselves are not overborne with State pride when they prefer Eastern made articles to those made at home. They do this in a great number of instances. For years it has been insisted that there must be a greater range of manufacturing in this State.

When a citizen starts a new factory, the first difficulty that he encounters is that he cannot get the home patronage. He does not find that local pride will turn patronage toward his establishment. He wonders why there is not some discrimination in his favor. That experience has been encountered hundreds of times in this State. There is no strong disposition to pull together. But the Californian when he goes abroad, generally talks well for his State. He dwells on its climate and resources, while his preference may be given for brands of goods that have no California stamp on them.

There are products of this State that do not need any advertising. The quality of California fruit is just about as well known abroad as at home. No one questions the quality of wheat or barley grown in the State. The climate has been well advertised. There never has been enough local pride to insist that California wine shall be sold as such and not under any false and foreign brand. Some years ago the fruit canning business was greatly injured in this State because certain canners proceeded on the theory that anything in the fruit line sent across the country, would go in Eastern markets. It came to this finally that particular brands had the call because they were known to be honest. But the fact that canned goods bore a California stamp, for a time had no weight. There was not enough State pride to make and preserve a reputation for the best.

The motto of most Californians is: "Get the best." Why should they not produce the best of everything that they have to send to market? With all these drawbacks, California has a good standing in the markets of the world. These are good lines of credit. Merchants pay their debts abroad in honest money. Bankers have the best of correspondents. Capital has been seeking the State for safe investments. The failures are comparatively few. When it is said that California stands well abroad, a pretty long bill of particulars can be given. There are not many drawbacks, nor are there a great many rash speculations. During the long business depression in the matter of credit, California has never been reproached with doubtful standing. These facts may be honestly cited in support of a reasonable State pride.

Japan as a Competitor.

Sir Edwin Arnold has advanced the theory that the great military triumph of Japan will make her a formidable competitor of the United States and European nations. The fact is cited that there was no cotton spinning in Japan in 1875. Now that country has 500,000 spindles in operation. It is a well-known fact that the Japanese duplicate every piece of machinery imported into that country. They never buy a second invoice. There are no patent laws for protection in Japan.

An instance is cited of a young Japanese who had a place in the drafting department of an iron working establishment in San Francisco. It was found that he had taken duplicates of every drawing and working model that had been made in the establishment. Of course these were all sent to Japan, and the drawings were faithfully followed in the production of machinery in that country.

NOTES AND EXCERPTS.

The volcano of Colima was in a state of eruption April 13th, mail advices report. This volcano has been active at intervals for several years, but its fires no longer alarm surrounding farmers.

Picture-buyers in Europe get bargains if prices paid as sales here are to be taken as the standard of value. A large Munkacsy recently sold in Paris for 18,600 francs ($3,720), and a particularly good example of Schreyer for 8600 francs ($1720).

Japan in one generation has risen to the rank of a first-class military power, so far as equipments and methods are concerned, and under her instruction China may soon become equally proficient in the art of war. With 440,000,000 of these people well armed, thoroughly disciplined and thirsting for conquest, what will be the result? Europe may again be overrun by invaders from the Orient, as in the past, and our Pacific shores will doubtless some day have to be defended against the allied navies of Japan and China.—*Atlanta Constitution.*

With 15,000 live cattle and 9000 quarters of dressed beef shipped last week to England, where the price of meat has actually decreased, the existence of a combine in this country seems to be clearly proven. When the Englishmen get our American beef cheaper than an American can get it, there is a suggestion of reason in the popular demand that the trusts be brought to a realizing sense of their duties to the public.—*Detroit Free Press.*

The few stockholders of the Standard Oil Trust, having made between $50,000,000 and $75,000,000 out of the consumers of their products, should make haste to establish another university under the auspices of some church organization which holds rather to theoretical creed than to practical ethics.—*Indianapolis Journal.*

Mention was made a few days ago of the intention of a man who has a star route mail contract to carry the mail upon a bicycle. There is a good deal of significance in this. In most of the star routes the mail bags are very light and could readily be carried upon a wheel. In places where the roads are good mails could be carried far more speedily by bicycles than by horses and at considerably less expense. This idea may take root and grow and be another incentive to road improvement.—*Baltimore Sun.*

A one-page letter from "Bloody Mary" to the Queen of Hungary brought $735 at a sale of autographs in London lately. Letters of Henry VIII to the Emperor Charles V and of Queen Henrietta Maria of England to her brother, Gaston, Duke of Orleans, sold for $58 each; one of Oliver Goldsmith to Bishop Percy for $100; of Shelley to Godwin for $92; a letter by Keats, $57; by Nelson, $71; by Marlborough, $65; by the great Earl of Chatham, $65; and one by Paul Veronese, signed with his real name, Paolo Cagliari, $132.

The *Railway Age* is authority for the statement that 373 railway companies are preparing to build 20,547 miles of new line. As this equals the aggregate of the new trackage for the last four years, it looks as if there is to be a boom in railroad building.

The Old Friends.

The old friends, the old friends
We loved when we were young,
With sunshine on their faces,
And music on their tongues!
The bees are in the almond flower,
The birds renew their strain;
But the old friends, once lost to us,
Can never come again.

The old friends, the old friends!
Their brow is lined with care;
They've furrows in the faded cheek,
And silver in the hair;
But to me they are the old friends still
In youth and bloom the same,
As when we drove the flying ball,
Or shouted in the game.

The old men, the old men,
How slow they creep along!
How naughtily we scoffed at them
In days when we were young!
Their prosing and their dozing,
Their prate of days gone by,
Their shiver like an aspen leaf
If but a breath went by.

But we, who are the old men now,
Our blood is faint and chill;
We cannot leap the mighty brook,
Or climb the breakneck hill.
We maunder down the shortest cuts,
We rest on stick or stile,
And the young men half ashamed to laugh
Yet pass us with a smile.

But the young men, the young men,
Their strength is fair to see;
The straight back, and the springy stride,
The eye as falcon free:
The shout above the frolic wind
As up the hill they go;
But though so high above us now,
They soon shall be as low.

O, weary, weary drag the years
As life draws near the end;
And sadly, sadly fall the tears
For loss of love and friend.
But we'll not doubt there's good about
In all of humankind;
So here's a health before we go
To those we leave behind!

—*London Spectator.*

Arthurian Romance

Yesterday afternoon, Mrs. A Sage Richardson entertained the members of the Ebell Society with the first of a series of addresses on "Arthurian Romance." She spoke about the influence which the romance of Arthur had upon the literature of modern times, showing how the historian and poet had relied upon the germs of truth which are to be found in tradition. She considered the origin of Arthur and claimed that from the early legends and loves of noble ladies of the time had emanated the principles of patriotism, love and religion. Mrs. Richardson's next address will be delivered Thursday next on "The Heroes of Arthurian Romance."

THEIR MEMORY STIRRED.

A Benefactor of Other Years, Being Needed Again, Is on Hand for Duty.

A nation threatened with war looks about for leaders, and naturally turns its eyes to veterans who have fought well in previous contests. So people attacked by disease, and seeking a remedy inquire what has helped them in other years. The grip is here again and in some places has assumed a form more malignant than ever. It will doubtless prowl about looking for victims until the settled weather of spring.

Now it is a matter of medical history that when grip was here before it was quickly thrown off by bodies that had been strengthened by a stimulant of the highest order and excellence. To hasten complete recovery after the grip Duffy's Pure Malt Whiskey was employed. That the same remedy is doing the same good work today, appears from a letter written by Mr Thomas Barroll of Seammon, Kansas, who says:

"Having been continually coughing, with pains running through my body, and being unable to work, I took two bottles of Duffy's Pure Malt Whiskey. I am now able to work. The cough and soreness on my chest are almost gone."

The cough, headache and soreness of muscle following the grip are never helped by local application. Being signs of a general weakness, they are thrown off only when the whole system is toned and stimulated, so that no organ does too much nor too little. To do this is the mission of Duffy's Pure Malt Whiskey.

All who remember how it gave them clear heads, sound stomachs and a healthy circulation when they were getting over the grip in other seasons have stopped themselves with Duffy's Pure Malt and have pointed out to their neighbors a way to avoid misery and loss of time. Is not the suggestion worth listening to?

Apportionment Is Made to the City Funds.

Figures That Will Be of Much Interest to Taxpayers.

The question of city finances is a matter to which a number of city officials are giving considerable attention at present. A good deal of quiet calculating is being done for the purpose of ascertaining just where the city stands and what it can do during the next two months in the way of making both ends meet without finding a deficit at the close of the fiscal year.

Treasurer Gilpin completed today an apportionment of city taxes to the various funds under his control. Against these balances, however, are the outstanding demands, which are also enumerated as totals.

*Deficit.

The amount of money at the command of the School Department, however, here figured is only that which is available from the city. The county and State apportionment is drawn upon from the County Treasurer. There is to be added to these figures as a source of revenue during the last two months of the fiscal year the income from licenses, which approximates about $18,000. Besides this will be the money secured from delinquent tax sales that has not yet been estimated as to both installments. There is about $6700 due upon the second installment. The delinquent tax upon the first has not yet been calculated.

A very fair estimate of the money available for city purposes for May and June can be secured from the tabulated statement here presented.

This will form the basis upon which estimates will be made by the city officials for the next two months. There will be several large payments to be made out of these balances, which are not now included, as the contracts under which the debts were made have not yet been completed.

It is the general opinion at the City Hall that a deficit can be avoided if a strict economy in all departments is observed. This, however, is somewhat problematical, as there can be no accurate estimate made of possible expenditures that will be necessary during the closing months of the year.

TABLES TURNED.

Alfred Brauer Appears as a Defendant.

His Case Against Tim Murry Thrown Out of Court

Alfred Brauer, who is known at the Courthouse as the man with a "legal jag," was brought into court this morning in the custody of the Sheriff. He was very sad and when he appeared at the bar of the court he seemed to realize that he had made a grave mistake in taxing Judge Ogden's patience to the last limit.

Brauer, who was a special officer at Berkeley, was trying to send his enemy, Tim Murry, a deputy constable, to the penitentiary. He claimed that Murry had given him a clubbing at Temescal.

When the trial was called this morning District Attorney Snook moved that the case be dismissed on the ground that the evidence was insufficient to warrant a conviction. He recalled the incident of yesterday afternoon, when Brauer appeared in court in a most glorious state of intoxication, and was fined $20 for contempt and committed to jail. The case was promptly dismissed by Judge Ogden.

Brauer then became a defendant. He made an appeal to Judge Ogden and said that he was very sorry that he had caused so much trouble in court. He said that he realized that he made a bad break and he would see that it would never happen again.

Judge Ogden took the view that the dignity of the court must be upheld. He said that the offense was an aggravated one because the defendant had been a peace officer. The judge accepted the apology but he would not remit the fine.

This was a hard blow to Brauer, as he was broke. As he could not dig up the money he had to go back to prison. The man who was accused of a crime was set free and his accuser was sent to prison to serve time. A night in jail gave the officer a chance to sober up, and today he feels his disgrace. His friends are hustling for him this afternoon to raise the amount of the fine so that he will not have to spend another night in jail. The next time Brauer appears in Judge Ogden's court he will leave his jag at home.

A JURY WILL DECIDE.

Dr. Carpenter's Libel Case to Be Tried in Two Weeks.

The case of Dr. R. A. Archibald, charged by Dr. Thomas Carpenter with criminal libel, was set for trial by jury on May 17th by Judge Wood this morning in the Police Court. The case has been dragging along for a number of days since Carpenter filed his amended complaint against the Sacramento veterinary, whom he has accused of trying to defame his character by sending some hot resolutions of the State Veterinary Association to the Board of Health of this city, touching Carpenter's aspirations to become Market Inspector.

Giles Morgan's Trial

Giles T. Morgan, charged with defrauding David Carr, ex-manager of the Galindo Hotel out of $35 will be tried in the Police Court tomorrow. A new complaint has been filed against the alleged hotel "beat" and he will have to explain why he is charged with having distributed worthless checks to pay a hotel bill.

GRAND TRUNK OFFICIAL.

Insomnia No Longer a Terror of the Hard Worker While Paine's Celery Compound Exists—Mr. N. J. Grace Speaks in Praise of It.

One of the clearest complexioned, best looking men in Boston today, says the Boston *Globe*, is a prominent New England agent of a great railroad, who uses Paine's celery compound spring and fall, and whose wife and children take it daily during the spring months.

Mr. N. J. Grace of the Grand Trunk is a modest man, one of the best-liked gentlemen in Boston, and a thorough railroad man.

When asked about the merits of Paine's celery compound he said he believed in it thoroughly, had used it himself and in his family for two years with the most gratifying results.

"My boys are using it now," he said, "and I believe there is no better spring medicine than Paine's celery compound. A touch of rheumatism first urged me to try it, and times after that, when run down, as most every one is at intervals through the year, I found that it revived the vital spark and made me feel better. Never in all my experience among men have I heard a remedy so highly spoken of. Friends of mine have used it with splendid results for dyspepsia and liver complaint, while for insomnia, a neighbor of mine tells me that it will banish it in a night."

Mr. Grace is one of the healthiest looking men to be met with in Boston today. For fully 30 years he has been with the Grand Trunk, yet in all his life he never looked better or enjoyed more freedom from pain than he does today. He is one of the thousands in this city who have reason to believe in Paine's celery compound.

The concrete foundation of the Sixth Ward school which occasioned so much litigation is being torn down. The contractors have notified the Board of Public Works that the material is at their disposal. The board will put it to good use.

For a long time past the approach to the Webster street bridge from the foot of that street has been in a dilapidated condition. The material will be carted there and will be used placing the roadway in passable condition. The concrete will be excellent for a roadway, and Mayor Davie has requested the other members of the board to authorize the work done at once.

MERCHANTS MEET.

LIQUOR STRIFE.

The Sunday Closing Ordinance to Be Handled.

Wednesday Next It Will Be Up in Committee.

Councilman Manuel Finds Himself Between Two Fires.

An interesting discussion on the Sunday closing ordinance will take place next Wednesday evening before a Committee of the Whole of the Council.

The discussion will not be indulged in exclusively by members of the Council, but will be open to those who favor the closing and those who are opposed to it. Partisans on the subject say that a great deal of eloquence may be expected.

Some time ago it was figured out that the ordinance could not be passed because there is a majority of members in the Council who are opposed to it, but at this time it is impossible to say what will be the fate of the measure.

The ordinance has been read only once in the Council, and whenever it comes up in that body again it will be either re-referred to the Ordinance and Judiciary Committee or sent on its passage to print.

As it now stands the measure proposes that saloons in this city shall be closed at 6 P. M. Saturday and remain closed until 6 A. M. Monday.

Speaking on the subject Councilman Marshall said this morning: "I am in favor of the ordinance. I am also in favor of amending it somewhat, if necessary. If it is found desirable to change the hour of closing from 6 P. M. Saturday to 10 P. M., or even to midnight, and keeping the saloons closed till Monday morning, I am in favor of doing it. I am in favor of closing at 6 P. M. also, or of closing saloons up altogether. I have examined the records and know how many people get drunk on Sunday. I know, too, that if the saloons are closed here people will go to the country and San Francisco and drink, but I do not care about that so long as they do not drink in Oakland and get drunk here on Sunday."

There are other members of the Council, however, whose minds are not so positive on the subject as Mr. Marshall's and one of those is Councilman Manuel.

The Councilman from the Third ward is in no easy frame of mind upon the subject. He has given the matter a great deal of attention. He has considered it from the standpoint of the platform upon which he was elected, touching the saloon question, and also from the standpoint of one who sees what effect the proposed enactment would have upon the city, its merchants and its trades people.

"I have given this question the closest attention," said Mr. Manuel today, "and I am at a loss to know how to act in the premises. If I do not vote for its passage, I shall displease those residents of the Third ward who are opposed to saloons. If I do not vote against the ordinance, I know I shall suffer several thousand dollars a year in my business because of those who deal with me and who will claim that I am injuring the city. I am opposed on moral grounds to saloons. I am opposed to them in principle in one way and in another way I am not. If the closing of the saloons could lessen the sale of liquor, I would favor it, but I have serious doubts in my mind on the subject. Liquor would be sold in secret and people would go to San Francisco and spend their money there, taking it away from this city. I am not what may be called a drinking man. I have liquors in my house at all times. I have whisky there, several kinds of it. But I do not think I would average one drink a day. Sometimes, I take a customer to the saloon near my store and treat him. I was born in New England, and I believe in the principles of sobriety, which my parents instilled into me, and yet I feel between two fires. I was elected on the platform of the Citizens' Municipal League, which expressed itself as against the saloon under every circumstance. People in the Third ward who have elected me to represent them are also opposed to saloons, but I do not know how many of them are of that opinion. Whether I could represent them by voting against this ordinance is a question. If I should be convinced that a majority of those people in that ward favored this Sunday saloon closing ordinance, I believe I would have to resign rather than vote on the proposition."

ELATED.

No Fear Now of a Failure.

Solid Backing Is Again Shown.

Fabiola's Fete Will Be a Big Success.

Renewed Energy Displayed Over the Carnival.

The Fabiola Fete, if mixed metaphor be allowed, has, like the phoenix risen from Wednesday's mud and will spread its glorious plumage with more gorgeous splendor a week from tomorrow.

No one could be blamed for feeling a bit of disappointment. The committee calculated and found that Wednesday was the only day during the two months upon which the fete could not have been held. There were some disagreeable days in the interim, but none positively bad enough to have prevented a big showing.

No one is disheartened. Quite the reverse. The magnificent showing made at the park, despite a downpour of rain that would have driven less enthusiastic mortals to shelter was indicative of the results that would have been accomplished had the weather played fair. With the fact before them that between 6000 and 7000 people braved the disagreeable climatic conditions to join in the festivities, the committee feels encouraged to branch forth on more elaborate lines than were first laid out.

Another interesting feature of the day was the fact that a majority of those who had entered to participate in the floral parade were on hand, and either reached the park with their vehicles or were notified while en route that the fete was off.

The headquarters of the association, in the Blake & Moffitt building, were a very busy scene of activity today. There is a great deal of fresh labor devolving upon the committee to rearrange the programme for the 11th, and there will be a busy week before them. There is every indication now that the list of entries in the floral parade will be very much larger than that of Wednesday. The committee has good reason to believe that it will run over 300 before the next six days are completed. They are positively assured by a large number of those who would have graced the occasion on Wednesday that they will be out in handsomer dress than ever. Many are signifying their intention to give more elaborate displays than they at first contemplated. What was exhibited on Wednesday simply astonished many who had failed to realize the possibilities of the occasion.

Among the first to come forward is Mrs. W. G. Henshaw, who has stated that she will double her display of vehicles with a corresponding increase in the decorations.

To Miss Florence Edolf belongs the honor of presenting the first entry to the new list. Yesterday she filed her card. She will ride a safety, decorated in green and yellow. Roses will be used.

Application by mail or in person for entry blanks will receive prompt attention from Secretary Pomroy. Those who send in their names, style of vehicles, colors and variety of flowers used will be duly entered without further trouble.

Mayor Davis has ordered the finest rig in a local stable for use at the parade, and will have it decorated most elaborately.

A local firm of florists received an order for 4000 roses from one individual today for decorating purposes.

It is very important that holders of tickets for admission to the park on Wednesday return them to the headquarters by Monday noon. After that date the old tickets will not be recognized under any circumstances. New tickets will be given in lieu of those now out. They will be on sale at the principal stores and at the headquarters in lots to suit on Monday.

Everything now points to a grander success than was predicted for May Day. The people have become thoroughly aroused to their ability to make a display that will equal anything ever held in this portion of the State and which will tread very closely upon the heels of the gorgeous floral festivals of Southern California. It is felt on all sides that the public pride is now stimulated to such an extent that the fete will be on a scale never dreamed of by its fondest promoters. The fact is indisputable that the turnout of Wednesday opened the eyes of a very large number of people. They will profit by the surprise and give such a display on May 11th that will simply brush into the shade the elaborate arrangements which were not culminated Wednesday.

That evening a large number of the committee met, and after a very unanimous sentiment had been enthusiastically expressed, decided to go forward with the work on broader lines than were at first contemplated. The field is open now to all, and it is believed that there will be a still greater response to the call for participants now.

HOW'S THE WEATHER?

Arrest in Napa of a Suspected Bicycle Thief.

A police officer went to Napa today to secure a young Swede known as "Sandy" Mahlgren, who was arrested there while trying to sell a bicycle which was stolen from Mendenhall's cyclery at Seventh and Market streets last Monday. Mahlgren, is supposed to be a man who rented a wheel under the name of P. Green and failed to return it. The police were notified and were given descriptions of the man and the wheel, which were circulated in the interior.

Dentists Will Prosecute.

The Oakland Dental Society held a meeting last night at the rooms of Dr. L. D. Boyes. Dr. J. M. Dunn, the president, was in the chair. Among those who attended the meeting were: Drs. A. F. Merriman Sr., A. F. Merriman Jr., R. H. Cool, Lewis Lane, Boyes, Sullivan, Corwin, Shuey, Allen, Taylor, Teague, Goddard, Hackett and Halsey. A special committee composed of Drs. Lane, Sullivan, Taylor and Halsey reported that Drs. C. Corvalt, Simon Horneff and P. M. Parsons are practicing dentistry without a license. It was resolved to have them prosecuted. The meeting then adjourned.

The Unitarian May Party.

The May party to be given by the ladies of the Unitarian Church tomorrow afternoon at Military Hall will be an enjoyable affair for the children and young folks, as well as their parents. The pretty ceremony of crowning a queen, the merry May-pole dance and the graceful minuet will be the main features of the entertainment. Much interest is manifested as to who will be chosen queen, and it is expected that the voting will be spirited, as each ticket holder is entitled to a vote.

Pensions have been granted in Washington to Augustus P. Williams and Luther Osborne Jr. of this city.

FIRE BELLS.

They Clang for a Blaze in the Blake Block.

Scared Slumberers Hastened to the Streets.

Considerable Damage Ere the Flames Were Under Control.

The Blake block, at the southwest corner of Twelfth and Washington streets, was the scene of a lively fire, which was discovered in the upper story to the rear about midnight by some messenger boys from the station on Twelfth street. They noticed smoke pouring out of a rear window, and one of the lads ran to turn in an alarm, while the others went to the building to arouse the sleeping inmates.

A double alarm was sounded, which brought the fire department out in big numbers.

The upper two floors of the building, which are occupied as a lodging house, were pretty badly damaged by water. The fire was confined to the rear of the upper floor of the block. There was a great deal of smoke, that penetrated the house and made matters very uncomfortable for the occupants, who were driven out of their rooms very hurriedly when the cry of fire sounded through the building.

The occupants of the upper floors made a very hurried exit, and few stopped for anything more than enough clothing to cover themselves, as the smoke and the glare of the flames indicated that a big fire was in progress. The department got to work speedily, but a good deal of water was spilled on the building before the flames were got under control. The stores on the ground floor were not damaged except by water, which poured into some of them and injured the stocks considerably.

The fire was under control by 1.30 o'clock this morning, but an hour later some excited individual sounded another alarm, which proved to be needless.

Among the occupants of the upper floor who were so unceremoniously driven into the streets were Mrs. M. E. Jones and her daughters, Misses Clara and Pet Jones. Miss Clara Jones was one of the first to discover the flames, which she said broke out in a small laundry used as a storeroom. When she saw the fire it was located in that room, but had spread on either side through the roof.

The loss to the building was about $10,000. The adjoining Davis block on Washington street, owned by ex-Mayor W. R. Davis, was somewhat damaged.

The Blake Block was owned by Mrs. M. K. Blake and relatives. H. H. Havens, superintendent of the building, carried an insurance of $40,000, which was recently rewritten at a 60 per cent cut.

Among the occupants who suffered some loss to their effects by smoke and water, were Mrs. Ann Fields, Mr. and Mrs. Charles Rogers and Laura Holland. Mrs. M. Burns had a sick son, who was carried out of the burning building, with the assistance of neighbors to a restaurant across the way.

Mrs. George Gray, Dr. and Mrs. Hess, Dr. Redfield, Misses Annie and Abbie Merry, Mrs. M. S. Root and Mabel Root, Mrs. E. G. Smith, Mrs. William Hahan and Miss R. H. Carrie also had rooms on the upper floor.

The Lace House, the Oakland Shoe Store and other stores on the ground floor were somewhat damaged by water.

SOME OF THE LOSERS.

The heaviest loss by the fire last night was sustained by the Oakland Shoe Company through the seepage of water upon its stock in the main store and the basement. The stock was very large, as Manager Fairchild had just been receiving very large consignments of spring goods. Last evening there were placed in the basement ninety-one cases of shoes, and for several days past stock has been accumulating at the rate of from forty to seventy-five cases a day.

Manager Fairchild stated that he would be unable to estimate his loss until after he had met the insurance adjusters. His stock is covered by insurance in the following companies:

North British and Mercantile, $13,000; German American, $5000; Insurance Company of North America, $2000; Home Insurance Company, $2000; Sun Insurance Company, $1000; Northwestern National, London & Lancashire, $10,000; London & Lancashire, $3000; Royal Insurance Company, $1000; Royal Insurance Company of Brooklyn, $1000; Scottish Union & National, $6,000; Commercial Union, $5,000; Commercial Union, $5000; Western Assurance, $3,500; Phoenix of Hartford, $4,000; Union Assurance, $1000; Union Assurance, $4,000; Northwestern National, $3,000; Home New York, $5000; Northwestern National, $1000; Imperial, $1000; Fire Association of Philadelphia, $1000; German-American, $2000; German-American, $500; Palatine, $20,000; Palatine, $1000; Imperial, $2500; Lyon, $2,500; Broadway, New York, $5000; total, $99,000.

H. C. Capwell of the Lace House said the stock in his store was mainly damaged by smoke. No water reached that end of the building in any great quantity.

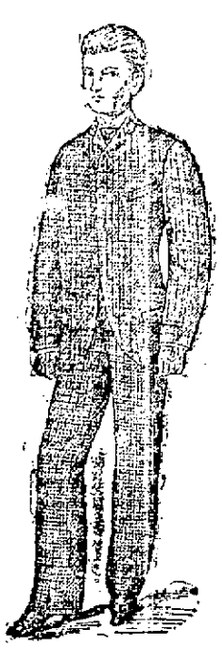

The New York Tea Company, Maison de la Mode and Prescott & Sargeant's candy store were slightly damaged by smoke and water.

DAMAGING

Durrant's Plight Is Worse.

Pointed Testimony Is Going In.

The Net Being Woven in the Lamont Case.

Attorney Quinlan Again Tells of the Meeting.

SAN FRANCISCO, May 3.—The preliminary examination of Theodore Durrant for the murder of Blanche Lamont was resumed this morning.

The result was damaging to the defendant, although his counsel tried hard to impeach the credibility of the prosecution's witnesses.

The testimony was a repitition of that given at the inquest.

Martin Quinlan, attorney, again positively identified Durrant as the man he had seen with the girl resembling Blanche Lamont going toward the church at 4:20 o'clock on the afternoon of April 3d.

David Clark, with whom Quinlan was waiting to keep an appointment, corroborated Quinlan's testimony and enabled him to fix the date precisely because of legal business they had transacted.

The janitor of the church discredited Durrant's statement to Organist King that he had been repairing gaspipes when he came down from the tower pale, sick and weak.

The janitor said the gas batteries were in good order March 31st, and there was nothing for Durrant to fix April 3d.

Severe cross-examinations only made the witnesses more positive in connecting Durrant with Blanche Lamont's murder.

BANKERS CLEARED.

The Indictments Against the Meadowcrofts Disposed Of.

CHICAGO, May 3.—Judge Windes today discharged Charles J. and Frank R. Meadowcroft, insolvent bankers, from indictment on charges of receiving money when they knew the bank was insolvent.

The point raised against the indictments was that they had expired, as no attempt has been made by the defendants during two terms of court.

The Meadowcrofts Brothers are under sentence of one year each, the case having been carried to the Supreme Court.

GATLINGS ARE READY.

Striking Miners to Get a Rattling Reception.

HUNTINGTON, W. Va., May 3.—Reports from mining districts along the Norfolk and Western are of a more serious character.

Several coal cars are reported burned along the line.

About a hundred colored miners from the Elkhorn region came to this city last night on a freight train and started east by foot.

Some think they are bent on destroying property.

A Gatling gun was sent with the militia this morning.

THE WAR WANING.

Some of the Insurance Managers' Heads in Danger.

SAN FRANCISCO, May 3.—The wholesale rate cutting among the insurance men has moderated, due it is said to directions from head offices of both the Eastern and English companies, where the rate cutting has been regarded as a species of insanity.

Inspectors are arriving at all the general offices.

After the books have been straightened, as a result of the recent feverish transactions, it is understood there will be many decapitations in the managerial departments on the Pacific Coast.

Lyman Has Quit.

WASHINGTON, May 3.—The resignation of Charles Lyman as a member of the Civil Service Commission is in the hands of the President. It is regarded as likely that the Commission will be practically reorganized. Lyman and Roosevelt (Republicans) will retire. Proctor (Democrat) will continue a member.

Yang-Tse-Kiang's Banks Cut Above Pekin.

How Japanese Invasion Was to Be Stopped.

No Danger, Though, as the Treaty Is to Be Ratified.

SHANGHAI, May 3.—In accordance with the special imperial edict issued to prevent the possibility of the Japanese entering Pekin, the Chinese have cut the river embankment near Pekin.

Miles of territory have been flooded and hundreds of Chinese drowned.

The British Minister to China, M. N. R. O'Connor, has gone to Pekin to make an attempt to recover from the Chinese Government the arrears of pay due the foreigners serving in the Chinese army before the outbreak of hostilities.

It is reported that the Tien Tsin German syndicate, which took up the indemnity, failed to negotiate the loan with China, and the Hongkong and Shanghai Bank is making arrangements for the loan.

THE TREATY IS ALL RIGHT.

TIEN TSIN, May 3.—The Emperor of China has decided to ratify the treaty of peace negotiated at Shimonoseki. Ratifications will be exchanged at Chee Foo, May 8th.

The Mikado ratified the treaty April 20th.

Prince Kung, President of the Chinese Council of Ministers and head of the Foreign Office, who has been absent on sick leave some time, will now resume active control of the Government departments under his supervision.

TO AWAIT THE EMPEROR'S ACTION.

YOKOHAMA, May 3.—The Japanese delegates—Count Ito, president of the Council of Ministers, and Count Myoji, the Japanese envoy—en route to Chee Foo in order to exchange ratifications of the treaty of peace, have been ordered to wait at Port Arthur until the Emperor of China ratifies the treaty.

THE DIPLOMATIC END OF IT.

PARIS, May 3.—The Japanese Minister, in an interview published in *Figaro* today, is quoted as saying that the intervention of other powers in the arrangements for peace arrived at between China and Japan is only a small difficulty.

China, he adds, has every interest to ratify the treaty and leave Japan to arrange matters with the European powers.

The Minister also said the Japanese must desire the payment of the indemnity and the commercial concessions upon the part of China to Japan.

WHAT JAPAN WILL CEDE

PARIS, May 3.—*Le Journal Des Debats* learns from an authentic source that Japan has decided to abandon the demand for territory in the Laio Tung Peninsula except Port Arthur in return for compensation elsewhere.

LOTS OF LAWYERS.

Twenty-one Answer "Ready" in Court.

They Are All Engaged in the Turner Land Case.

An interesting case was called up for hearing before Judge Frick this morning. It was the suit of J. J. Fagan against J. F. Turner, the notorious land schemer, who has figured so prominently in the courts across the bay. The plaintiff seeks to foreclose a mortgage of $12,500. On its face the case appeared to be a simple foreclosure suit, but when the trial was called it was found that there was to be a hot legal battle, in which some of the prominent lawyers of the State were interested.

Turner was one of the shrewdest land schemers in the State. He used to purchase property and have the title placed in the name of his typewriter, Lizzie O'Donnell. When he was finally exposed it was found a hard matter to get at his property. Fagan proposed to have his money on the mortgage held by him, and he rushed into court with a suit. When his case was called, twenty-one lawyers answered and announced that they proposed to take part in the trial. It was found that the property covered by the mortgage is located in five counties, and this made additional complications.

The lawyers who answered for their clients in the case were as follows: C. P. Robinson, Morrison, Stratton and Forester for Defendant Simonds; Denson, Reddy, Campbell and Metson for Meggingson; Page, Eells and Wheeler for Hutchinson and the Sather Bank; John Yule for the Oakland Bank of Savings; W. S. Goodfellow for the German Savings and Loan Society; John M. Chretien for J. O. Rice; John B. Mhoon for the State University; and Crittenden, Foote and Van Wyck.

This was an array of legal talent that was hardly expected by Judge Frick. His Honor came to the conclusion that there was going to be a legal battle that would take up much time. The lawyers represented parties who had some interest in the disputed lands. One of the attorneys announced that he could not very well proceed with the case because his client was in jail, and he did not know when he would get out. After much discussion it was agreed that the case should be continued for a time, when all the attorneys could get ready for the trial.

BLOWN UP.

Powder Mills Explode in an Eastern Town.

Fire Is Communicated to the Woods Near By.

Five Men Believed to Have Perished in the Disaster.

SOUTH ACTON, Mass., May 3.—Three mills of the American Powder Company here blew up this morning one after the other.

In fifteen minutes five persons are believed to have been killed.

The woods close by the mills were set on fire and burned fiercely, threatening the biggest storehouse containing 20,000 pounds of powder and preventing the saving of the property.

Fifty men were employed in the mills.

After the first explosion the employes in the Corning Mill, about forty in number, rushed from the building and escaped before the flames spread to the mill.

There were ten mills separated and inclosed by high board fences.

The explosion of the first mill set fire to the surrounding fence, and the flames spread to the second and third mills.

The list of dead is as follows: Charles O'Neill Jr., Maynord, Mass., unmarried; Nelson Morris, Acton, leaves a widow and several children; Frederick K. Winslow, South Acton, unmarried; Charles Exley, South Acton, unmarried; A. Estes, South Acton, leaves a widow and six children.

A STEAMER ON FIRE.

She Burns to the Water's Edge, Cargo and All.

PORT COLBORNE, Ont., May 3.—The schooner J. S. Richards, which arrived here today, reported sighting a large steamer on fire on the beach at Morgan's point.

The steamer is the N. E. Fairbank, due here last night, loaded with 90,400 bushels of corn, bound from Chicago to Ogdensburg, owned by John H. Bartow of Cleveland and valued at $60,000.

The Fairbank's mate and crew arrived here in a ship's yawl some time after the schooner Richards.

The mate states the Fairbank went ashore about 2 o'clock this morning.

All hands were put to work throwing the corn overboard.

While thus engaged fire was discovered in the forecastle forward.

The steamer burned to the water's edge.

The captain remained on shore near the wreck.

Gresham Is Better.

WASHINGTON, May 3. — Secretary Gresham passed a restless night and today is much prostrated. The acute symptoms have abated in severity and it is hoped that in the course of a few days the Secretary will have gathered strength sufficient to enable him to undertake a visit to a near-by health resort.

TRYING AGAIN.

Twenty-third Avenue Saloon Men Rampant.

They Will Try Their Luck Before the New City Council.

The old fight of residents of the Twenty-third avenue district against the licensing of saloons in that neighborhood, will be reopened tonight with a meeting of the License Committee of the Council.

Seven saloonkeepers have filed their applications for licenses with the City Clerk, and they are for locations all within the Twenty-third avenue district. The petitions and their respective places of business are as follows: Gus Williams, 1158 Twenty-third avenue; Charles Koenig and Ben James, 603 Twenty-third avenue; Franz Hudding, East Eleventh street and Park avenue; R. Daemon, 1148 East Fourteenth street; L. Jurgensen, 1103 East Twelfth street; Walter A. Cook, 561 Park avenue.

Several of the petitioners have been arrested a number of times for alleged violations of the Liquor License law and a number are now conducting what are called "temperance saloons" in the places for which they seek liquor licenses.

This is the first time since the new Council was inaugurated that a concerted effort has been made by the Twenty-third avenue saloon men to secure the much coveted authorization to sell "malt, fermented or spirituous alcoholic liquors."

Their applications will undoubtedly reopen the fight that has for several years past been made by the Twenty-third avenuites against the saloons in that neighborhood. A few years ago the battle was waged so vigorously that a number of the saloons were forced to close. There are none now in operation in that district except such as are conducted under the guise of "temperance" resorts.

It is probable that both sides will be well represented before the committee when the applications come up for consideration.

SUTRO KICKS.

Attorney Preston Throws Out a Strong Hint.

A Vigorous Conference Over the China Basin.

Harbor Commissioner Colnon Anxious to Settle Matters.

SAN FRANCISCO, May 3.—The Harbor Commissioners, with Governor Budd and Mayor Sutro, met with the representatives of the Valley Road this morning to consider the amendments to the lease of China Basin to the Valley Road.

Sutro attacked the terms of the lease, and incidentally the sincerity of the opposition road, saying the China Basin could be transferred to the Southern Pacific by the Valley Road in forty-eight hours.

Attorney Preston of the Valley Road said any person making such a statement was a blank fool.

The Mayor made no response to this, but introduced a number of technical amendments preventing the Valley Road from co-operating with any other railroad.

President Colnon expressed disapproval of the apparent attempt to obstruct the new road.

He said he is anxious to see the work completed.

No conditions should be imposed on the projectors which would hamper them in the work of completing the Valley Road.

All these goods were of the value of $800. She reported her loss to the police, but no clew has been obtained to the robbers.

SHE WAS SPEEDY.

Wolferdingen's Wife Trotted too Fast for Him.

He Is Praying for Divorce on the Grounds of Desertion.

Charles E. Wolferdingen Jr. brought an action in the Superior Court this morning to secure a divorce from Edith Wolferdingen on the ground of desertion. A couple of years ago he was married in this city by Charles E. Snook, then Justice of the Peace. Today Mr. Snook appears in the role of an attorney to secure a divorce for the disappointed young man.

Mr. Wolferdingen has had a matrimonial experience that he will long remember. He was celebrating his honeymoon, and the future seemed to be very bright. At the end of two weeks his bride suddenly disappeared. The young man was unable to account for her disappearance and he instituted a search. It was learned that Berkeley life was too slow for her, and after she had spent a day in the whirl of San Francisco she came to the conclusion that she could never be contented to settle down in a little cottage in the college town. Wolferdingen was willing to forgive her if she would only return and agree to behave herself. The bride, however, would not yield to his requests, and said that she would rather be in the swim across the bay than a staid young matron at a Berkeley home.

Edith proved to be very capable in her way. She learned how to get fine jewels and good clothes and these things could not be given to her by her husband. Wolferdingen followed her career in San Francisco and after a short time he came to the conclusion that his bride was too speedy for him. In his complaint the young husband was very careful to shade the many faults of his young bride. He simply desires to be free and does not want a judgment for alimony entered against him. There will probably be no contest.

Robert Rankin Says He Did Not Enter Into a Conspiracy.

Robert D. Rankin, an insolvent debtor, has answered the charge of fraud made against him by Robert Dalziel, assignee of his estate. Dalziel asserted that Rankin had transferred some stock of the Gordon Orchard and Vineyard Company to his wife in order to prevent his creditors from securing it.

In an answer filed today Rankin denies that he has been guilty of fraud in any way. He says his wife owned the stock.

ON A SPREE.

That Is How Begley Lost His Valuables.

The Robbery Theory Is Quickly Knocked Out.

His Watch and Chain Held by a Cabman for Non-Payment.

A reporter of a San Francisco paper told a harrowing tale of highway robbery in his Oakland column this morning. The alleged victim was said to be B. C. Begley, an employe of the Standard Oil Co., who avowed he had been waylaid at Fifteenth and Webster streets by two highwaymen on Tuesday night and robbed of $30, a watch and chain and other valuables. A very little investigation exploded the story in short order.

Begley and a friend went out to make a night of it Tuesday evening, and both landed in the City Prison. The friend was locked up on a charge of drunkenness. Subsequently Begely, who was sober enough to hold himself together, and was not arrested, returned to the jail and secured his friend's release. Both chartered a Gurney, and were driven about town until the driver unceremoniously dumped them into the street for non-payment of fare.

Nothing dazed the couple hired a hack and ordered the driver to deliver them at a resort on the San Leandro road. There Begley and his friend with the hackman, who had been invited to join the party, wandered into the saloon and ordered drinks. When it came to a settlement, Begley and his friend failed to come to the center. The hackman was forced to pay the reckoning to avoid a row. When the cabdriver saw the turn of affairs and realized that he had been driving a couple of "dead heads" he was wroth.

He realized that a night's work was ruined unless he could recoup himself in some manner. He noticed the glitter of Begley's watchchain. Without any more ado he simply removed the chain and the watch on the end of it and stated he would hold the jewelry as collateral until the hack bill was settled. Begley and his friend were driven back to Oakland, sadder yet wiser men.

Wednesday night Begley drifted into the police station about midnight and told his story. Begley, however, was too late so far as the police were concerned. They had learned of his escapade the evening before and dismissed his wild robbery yarn without a word.

It is so well systematized, however, that only very slight changes were necessary."

A Word to Wheelmen.

On the night of the grand bicycle parade in honor of the Fabiola May Fete, the cyclery which was the principal rendezvous for large numbers of the riders who took part in the parade was the Central Cyclery in the Central Bank building on Fourteenth street opposite the Macdonough Theatre Some of the riders wanted repairs of various kinds, while others wanted the finishing touches put to their decorations. But no matter what was wanted E O. Lund, the proprietor, was able to supply it because his cyclery is the largest, best supplied and best appointed in town. Ice Means Pure Food.

One of the pleasures of life is to have the solids and liquids which are served upon the table taste as it was intended they should by nature This cannot always be the case owing to changes in the temperature of the atmosphere or the home. Streams From Alvarado Save the Blake Block.

Steady Pressure From Start to Finish.

A Practical Refutation of Theoretical Criticism.

As a practical demonstration of the efficiency of the Alvarado water supply for the extinguishing of fires, no better proof could have been offered than the experience of the Fire Department last night at the fire in the Blake Block

At the first tap of the bell the operating works of the Oakland Water Company at Alvarado were signaled and before the Fire Department reached the scene the pumps were at work and the requisite pressure was thrilling through the pipes

Every stream from the hydrants of the Oakland Water Company worked like a geyser, and in twenty minutes a deluge was pouring over the blazing building.

"I was on the roof of the Davis building," said First Assistant Chief Engineer Myles Doody, "directing a stream from an Eleventh street hydrant into the apartments where the fire originated and before I could get away from it another stream shot up from the open lot in the rear of the building, sixty feet below, where Phoenix engine was located wetting me from head to foot It was one of the prettiest streams I ever saw—steady, strong and spraying like a fountain I tell you the pressure from the Alvarado hydrants is all right, and it was water promptly applied, properly directed and backed by sufficient force that saved Oakland from a big disaster last night "

Other members of the department corroborated Mr. Doody in every particular and all were enthusiastic in praise of the service which the pumps at Alvarado rendered

One laddie remarked, "We'll be sending our hooks to the junk yard if we get such a pressure right along as we had last night There's no need for hook and ladders in Oak and when we can throw a stream eighty feet "

As an example of the force and quantity of water that can be used at a fire in the business section of Oakland from the mains of the Oakland Water Company, it may be mentioned that four engines were supplied from one hydrant, and each stream was more than equal to that thrown under similar circumstances at any other fire in the history of Oakland

The insurance companies are more than satisfied with the results of this first experiment with the water supply of the Oakland Water Company in use at fires As a consequence of the determination of the fact that the Oakland Company's hydrants west of Broadway are efficient for extinguishing fires, even without the aid of engines in that district will be taken with more confidence and probably at a lower rate than in those sections of the city where the old system is still in vogue.

There was every opportunity for a comparison of the force and efficiency of the water supply of the two companies, and it is the universal verdict of experts that the water from Alvarado was in every way a more effective element in extinguishing what promised to be a disastrous conflagration than that of the old system

"I don't think the property owners west of Broadway need fear the consequences of a fire in the same degree as those whose interests are located east of that thoroughfare," was the comment of an insurance adjustor who was early at the scene of the fire and watched every movement attentively and impartially, having no prejudice except as the interests of his company were concerned

The results of the fire in the Blake block are eminently satisfactory as far as the protection afforded to that section of the city by the Oakland Water Company is concerned and amply refutes the falsehoods of interested theorists who have claimed that the pumping system would in practice prove futile and inefficient.

It has been demonstrated that the Oakland Water Company's system is by far the best that has ever been introduced in this city; and it has been shown that the method of laying the mains so that every pipe distributes equally by means of interconnections, so that a direct pressure on the big main operates with equal pressure throughout the entire system instantly is the only thoroughly practical and efficient means of operating a water service for the extinguishing of fires in a big city

It was a practical test and one that cannot be offset or controverted by any amount of sophistical argument or theoretical supposition The fire in the Blake block was extinguished and the property saved solely by the prompt application of water that had the requisite pressure from apparatus operated on modern improved processes and with modern machinery.

Good Talent Is in the Treble Clef Concert.

A Demand for Seats for "A Country Sport."

Amusements That Are Now Making Bids for Patronage.

Twenty-one of Oakland's leading ladies have become patronesses to the concert to be given by the Treble Clef Quartet tonight in the Congregational Church, and many are making up parties to attend what now promises to be one of the finest concerts given in this city.

The ladies of the quartet—Miss Beatrice Priest, Mrs. A. M. Noble, Miss Jeannette Wilcox and Miss J. L. Birmingham have been singing together since fall under the direction of Mrs. Marriner Campbell, well known by the matrons of Oakland, and have established reputations in many of the cities of this State. San Francisco critics pronounce the work of the quartet as perfect as can be, and the blending of the voices is so good that in unison passages no one voice can be distinguished from the others.

As each of the ladies are eminent soloists they will be heard alone as well as in the quartets. Miss Priest, so well known to Oakland audiences will sing a bolero, "Andalouse," by Calixa Lavallee, which has never been heard in this city. Mrs. Noble is a stranger to Oaklanders, being a recent comer from Stockton, and will sing Pinsuti's "J'amais tes Yeux." Miss Wilcox recently sang at one of the concerts of the Orpheus Club and made an instantaneous hit by her artistic and perfect rendition of her songs. She will sing "Come to My Heart, My Love," by Jordan. Mrs. Birmingham is another stranger here, but her wonderful low tones are bound to please. She is on the programme for two numbers, "The Quest," by Eleanor Smith, and "Oh, That We Two Were Maying," by Nevin, singing the latter an octave below.

Miss Ina Griffin the pianist, and Miss Jean Mary Hush, the violinist will assist the quartet, the former playing two numbers by Chopin, and the latter the overture from *Cavalleria Rusticana*, by Mascagni.

The concert will begin at a quarter past 8 o'clock.

"A Country Sport."

Peter F. Dailey's sterling company of clever people will be seen at the Macdonough for only two nights—Monday and Tuesday of next week—in that jolliest of up-to-date farces, *A Country Sport*. Dailey has a very humorous vein and he has gathered about him such people as May Irwin, Ada Lewis, John Sparks and a host of minor comedians who are up in their business. The demand for seats is excellent and the company will enjoy two big houses.

The Scheel Concert

Next Friday night Herr Fritz Scheel will give at the Macdonough a grand operatic concert, which will include selections from *Der Freischutz, Lohengrin, Faust, Il Trovatore*, and other masterpieces. Scheel will render for the first time in Oakland several violin solos. The concert is attracting much attention from the local musicians.

NO NUMBERER.

The Mayor Thinks the Office Not Needed.

Ordinances Discussed in Committee of the City Council

The Ordinance and Judiciary Committee of the Council discussed at considerable length last evening the proposed ordinance which repeals the privilege extended to James P. Taylor to erect coal bunkers on the City wharf. An opinion from City Attorney Peirsol was read which held that the action in granting Taylor the right was illegal and the Council was without power to pass the ordinance which gave him the privilege.

Mayor Davie stated that if the ordinance was not rescinded he would never permit, as Mayor of the city and president of the Board of Public Works, to allow a stick of timber to be placed upon the wharf. The ordinance was referred back to the Council without recommendation.

A communication from Mayor Davie was read, recommending that the office of City Numberer be abolished. The Mayor explained that he thought the work hitherto performed by that official could be done by the street department. He said there were three men in the street department who had little else to do but look at each other and draw their salaries.

The Board of Public Works was requested to report to the Council as to the most feasible method of stopping the overflow of water during the winter on San Pablo and Telegraph avenues and Grove streets. The board will also decide as to the best plan to dispose of city garbage.

The committee recommended that Seventeenth street be extended to the bay shore line, as outlined in an ordinance which was very fully discussed before the old Council went out of office.

C. B. Rutherford's application for a position as City Wharfinger was filed.

Mayor Davie's application for the appointment of a clerk, who shall also be City Expert was laid over.

The State Flower Show.

The eleventh annual flower show of the State Floral Society is in progress in the Maple room of the Palace Hotel, and Oakland is well represented in the display. Among the exhibitors from this side of the bay are the Mountain View Cemetery Association, which displays a grand collection of roses in all colors and varieties; Robert Nunnemacher, who exhibits four families of pansies; E. Gill, who has the largest collection of roses and special seedlings. There are also fine displays by the Fruit Vale Rose Company and the Yokohama Garden association.

Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!

Yale's La Freckla

Death to Freckles.

Mme. M. Yale was recently asked the question "which of her discoveries she considered the most wonderful." Her reply was as follows: La Frecla, because it unmasked my own face from a filthy mass of freckles and gave me the beautiful rose leaf complexion which you see and which has been admired by the people of every nation. Before I discovered La Frecla I was a freckled face individual disgusted with my own appearance. Today I am the envy of every woman who looks at my skin.

La Frecla will remove any case of freckles in existence and leave the skin as transparent as crystal. One or two applications removes tan and sunburn. It takes from three to nine days to destroy every trace of freckles. It is the only remedy known to the world that does this. Now is the time to use La Frecla, as it strengthens the skin, removes and prevents freckles and sunburn. $1.00 per bottle. Sold by all druggists or

FRIDAY.....................MAY 3, 1895

MRS. SARTORIS, the daughter of the late General Grant, having had a rather uncomfortable experience with a British husband, is about to wed a Confederate general. It is well that the Blue and the Gray should come together. As General Grant gave the Confederate general a sound military thrashing, there is every reason to suppose that he has profited by it, and will make a good husband for the daughter of the greatest Union soldier that ever led the armies of this country to victory.

THE election of Dr. J. K. McLean as pastor of Plymouth Avenue Church had been anticipated for some time. The church has long needed a leader. Few men would care, after building up one of the strongest churches in the country, to take in hand such a weakling. But if any man can make this little church strong, it will be the man who will become identified with it a few months hence. It is probable that some of his old parishoners will follow him to this new field. A great deal of work has been cut out for the future of this indefatigable worker and successful leader.

REV. GEORGE D. HERRON, who has been heard in Southern California, is coming back to these parts to "trouble Israel" again. A project is on foot to invite Professor Herron to lecture in one of the largest halls in San Francisco, and to make the lecture free to all workingmen. This invitation is to take the form of a popular testimonial of respect and esteem. Dr. Brown will probably have his sack of rocks ready. Professor Herron will also deliver one or more lectures in this city. There might be a sort of fraternal gathering of missiles for the occasion. "Oh that my minister were a gentleman," said a well known lady after listening to an abusive tirade against Dr. Herron.

Defining a Monetary Issue.

Comptroller Eckels, at the recent banquet of business men in Detroit, drew the lines very sharply between bimetallists and monometallists. He advocates the larger use of silver and maintains that every man who honestly believes in a sound currency will be driven into the camp of the bimetallists.

"The contention which is now made by the single silver standard adherents reduced to its last analysis is silver fiatism pure and simple. It differs in degree only, and not in principle, from the contention of twenty years ago of the advocates of the unlimited issue of irredeemable greenbacks, and from that issue of the fiat currency of the period of the Continental Congress and the era of colonialism. It finds counterpart in the argument of the French revolutionists who bankrupted the citizens of France with their millions of worthless assignments and mandate; it resembles the reasoning of King Alexis of Russia when, more than three centuries ago, he impoverished his subjects and fomented civil strife by undertaking to force upon them copper copeks of the same form and value as a substitute for silver ones."

More Than a Political Organ.

The *Times-Herald* of Chicago, which formerly represented the Democratic party in that city, became an independent paper, with Republican leanings, on its purchase by Mr. Kholsaat. He invested more than a million dollars in that paper. One of the boldest strokes of business was to change its politics, or rather to place it on an independent basis. A few years ago a radical change like that would have been thought equivalent to the undoing of a newspaper. But the strong man knew his ground.

This change is another illustration of the fact that the mere party organ has much less power than formerly. It is seldom that a great newspaper has undergone such a radical change of base with so little prejudice to its interests. Just now there is no Democratic organ in Chicago, unless one has been established within a week. All the great newspapers of late years have been seeking a broader and more independent basis. They reflect the views of all parties while having a closer adherence to the principles of some one of them. One could hardly imagine, for instance, that it would be possible for the New York *Tribune* to change its base without being crippled. Yet the *Herald* has always been an independent concern and has in that way reflected the views of all parties. The *Times-Herald* of Chicago will be a power in the next Presidential canvass.

The Mayor's Improvement Policy.

If the Mayor keeps up to the key note he has already struck, there will be lively times in Oakland during his term of office. Even if some of his projects should fail, that would be better than to have no plans at all. This city has suffered for lack of any well defined policy. Nearly all citizens favor municipal improvements. They divide on the questions of what lines of progress are most desirable. The Mayor proposes to improve the small parks of the city. These are mere breathing spaces of a single block here and there. A few trees and shrubs will add somewhat to their attractiveness. Those squares ought not to be overgrown with shade trees or shrubbery. They are sought as sunny openings. The more sunlight let into them the better. If the parks are converted into shrubbery gardens, their most important use would be greatly abridged. The climate here does not demand dense shade. What is most needed is sunlight in open spaces. Ornamental shrubs may be desirable, provided they do not encroach upon openings where the sun is always better than shade.

While the Mayor is turning his attention to these city squares, it might be well to call his attention to the water park of which so much has been expected and so little realized in this city. The plans of improvement originally contemplated, do not find favor with perhaps a majority of citizens. The work was stopped. But all along there has been a general agreement that Lake Merritt should be deepened without destroying any of its natural features. There was also a general agreement that there should be a broad carriage way or boulevard around the water park. The later opinion as it found expression was that this avenue should be constructed along the margin of the lake rather than in it, and that adjoining property should pay a part of the cost. These points were pretty well settled after a great deal of discussion and some harsh criticism touching earlier methods of improvement. No public improvement has ever been suggested for this city of more importance than this water park. It is just now in a condition of absolute neglect.

It would be difficult to mention a city of the size of Oakland that has not a considerable area devoted to a public park. The substitute for a park in Oakland has been accepted in the gift of Lake Merritt. It cost the city nothing to acquire possession. It is every year becoming less attractive because of neglect. There is today a considerable amount of foul drainage entering the lake that ought to be turned away. There are thousands of cubic yards of mud that should be removed. There ought to be many acres of land contiguous to the lake acquired for park purposes.

If Oakland is ever to have a park befitting the city, it is time that some plans for it were settled. If the Mayor can formulate a better plan than has been published, the sooner that is done the better. The improvements would cover a number of years. They can be made in a way not to become a burden to taxpayers. Such an improvement goes well with a better system of street improvements. Oakland today has no park. Lake Merritt has never been a substitute for one, and never will be until the mud is removed and an avenue is constructed around it. Somewhere a public park ought to fit in to the Mayor's policy of public improvements.

At Home and Abroad.

There is just now a disposition to congratulate the State on its good standing abroad. The bonds of leading cities are eagerly sought as safe investments. California has no large debt. Even municipal debts are comparatively small. It is a pity that State pride does not have a stronger business application. A few years ago certain articles were manufactured in this State that were sold abroad on the home stamp. For instance, California blankets were sold as such, and were sought in the Eastern markets. It was not necessary to put any foreign stamp on these home made goods. But Californians themselves are not overborne with State pride when they prefer Eastern made articles to those made at home. They do this in a great number of instances. For years it has been insisted that there must be a greater range of manufacturing in this State.

When a citizen starts a new factory, the first difficulty that he encounters is that he cannot get the home patronage. He does not find that local pride will turn patronage toward his establishment. He wonders why there is not some discrimination in his favor. That experience has been encountered hundreds of times in this State. There is no strong disposition to pull together. But the Californian when he goes abroad, generally talks well for his State. He dwells on its climate and resources, while his preference may be given for brands of goods that have no California stamp on them.

There are products of this State that do not need any advertising. The quality of California fruit is just about as well known abroad as at home. No one questions the quality of wheat or barley grown in the State. The climate has been well advertised. There never has been enough local pride to insist that California wine shall be sold as such and not under any false and foreign brand. Some years ago the fruit canning business was greatly injured in this State because certain canners proceeded on the theory that anything in the fruit line sent across the country, would go in Eastern markets. It came to this finally that particular brands had the call because they were known to be honest. But the fact that canned goods bore a California stamp, for a time had no weight. There was not enough State pride to make and preserve a reputation for the best.

The motto of most Californians is: "Get the best." Why should they not produce the best of everything that they have to send to market? With all these drawbacks, California has a good standing in the markets of the world. These are good lines of credit. Merchants pay their debts abroad in honest money. Bankers have the best of correspondents. Capital has been seeking the State for safe investments. The failures are comparatively few. When it is said that California stands well abroad, a pretty long bill of particulars can be given. There are not many drawbacks, nor are there a great many rash speculations. During the long business depression in the matter of credit, California has never been reproached with doubtful standing. These facts may be honestly cited in support of a reasonable State pride.

Japan as a Competitor.

Sir Edwin Arnold has advanced the theory that the great military triumph of Japan will make her a formidable competitor of the United States and European nations. The fact is cited that there was no cotton spinning in Japan in 1875. Now that country has 500,000 spindles in operation. It is a well-known fact that the Japanese duplicate every piece of machinery imported into that country. They never buy a second invoice. There are no patent laws for protection in Japan.

An instance is cited of a young Japanese who had a place in the drafting department of an iron working establishment in San Francisco. It was found that he had taken duplicates of every drawing and working model that had been made in the establishment. Of course these were all sent to Japan, and the drawings were faithfully followed in the production of machinery in that country.

NOTES AND EXCERPTS.

The volcano of Colima was in a state of eruption April 13th, mail advices report. This volcano has been active at intervals for several years, but its fires no longer alarm surrounding farmers.

Picture-buyers in Europe get bargains if prices paid at sales here are to be taken as the standard of value. A large Munkacsy recently sold in Paris for 18,600 francs ($3,720), and a particularly good example of Schreyer for 8600 francs ($1720).

Japan in one generation has risen to the rank of a first-class military power, so far as equipments and methods are concerned, and under her instruction China may soon become equally proficient in the art of war. With 440,000,000 of these people well armed, thoroughly disciplined and thirsting for conquest, what will be the result? Europe may again be overrun by invaders from the Orient, as in the past, and our Pacific shores will doubtless some day have to be defended against the allied navies of Japan and China.—*Atlanta Constitution.*

With 15,000 live cattle and 9000 quarters of dressed beef shipped last week to England, where the price of meat has actually decreased, the existence of a combine in this country seems to be clearly proven. When the Englishmen get our American beef cheaper than an American can get it, there is a suggestion of reason in the popular demand that the trusts be brought to a realizing sense of their duties to the public.—*Detroit Free Press.*

The few stockholders of the Standard Oil Trust, having made between $50,000,000 and $75,000,000 out of the consumers of their products, should make haste to establish another university under the auspices of some church organization which holds rather to theoretical creed than to practical ethics.—*Indianapolis Journal.*

Mention was made a few days ago of the intention of a man who has a star route mail contract to carry the mail upon a bicycle. There is a good deal of significance in this. In most of the star routes the mail bags are very light and could readily be carried upon a wheel. In places where the roads are good mails could be carried far more speedily by bicycles than by horses and at considerably less expense. This idea may take root and grow and be another incentive to road improvement. —*Baltimore Sun.*

A one-page letter from "Bloody Mary" to the Queen of Hungary brought $735 at a sale of autographs in London lately. Letters of Henry VIII to the Emperor Charles V and of Queen Henrietta Maria of England to her brother, Gaston, Duke of Orleans, sold for $58 each; one of Oliver Goldsmith to Bishop Percy for $100; of Shelley to Godwin for $92; a letter by Keats, $57; by Nelson, $71; by Marlborough, $65; by the great Earl of Chatham, $65; and one by Paul Veronese, signed with his real name, Paolo Cagliari, $132.

The *Railway Age* is authority for the statement that 373 railway companies are preparing to build 20,547 miles of new line. As this equals the aggregate of the new trackage for the last four years, it looks as if there is to be a boom in railroad building.

The Old Friends.

The old friends, the old friends
We loved when we were young,
With sunshine on their faces,
And music on their tongues!
The bees are in the almond flower,
The birds renew their strain;
But the old friends, once lost to us,
Can never come again.

The old friends, the old friends!
Their brow is lined with care;
They've furrows in the faded cheek,
And silver in the hair;
But to me they are the old friends still
In youth and bloom the same,
As when we drove the flying ball,
Or shouted in the game.

The old men, the old men,
How slow they creep along!
How naughtily we scoffed at them
In days when we were young!
Their prosing and their dozing,
Their prate of days gone by,
Their shiver like an aspen leaf
If but a breath went by.

But we, who are the old men now,
Our blood is faint and chill;
We cannot leap the mighty brook,
Or climb the breakneck hill.
We maunder down the shortest cuts,
We rest on stick or stile,
And the young men half ashamed to laugh
Yet pass us with a smile.

But the young men, the young men,
Their strength is fair to see;
The straight back, and the springy stride,
The eye as falcon free;
The shout above the frolic wind
As up the hill they go;
But though so high above us now,
They soon shall be as low.

O, weary, weary drag the years
As life draws near the end;
And sadly, sadly fall the tears
For loss of love and friend.
But we'll not doubt there's good about
In all of humankind;
So here's a health before we go
To those we leave behind!
—*London Spectator.*

THEIR MEMORY STIRRED.

A Benefactor of Other Years, Being Needed Again, Is on Hand for Duty.

A nation threatened with war looks about for leaders, and naturally turns its eyes to veterans who have fought well in previous contests. So people attacked by disease, and seeking a remedy, inquire what has helped them in other years. The grip is here again, and in some places has assumed a form more malignant than ever. It will doubtless prowl about looking for victims until the settled weather of spring.

Now, it is a matter of medical history that, when grip was here before it was quickly thrown off by bodies that had been strengthened by a stimulant of the highest order and excellence. To hasten complete recovery after the grip Duffy's Pure Malt Whiskey was employed. That the same remedy is doing the same good work today, appears from a letter written by Mr. Thomas Barroll of Seammon, Kansas, who says:

"Having been continually coughing, with pains running through my body, and being unable to work, I took two bottles of Duffy's Pure Malt Whiskey. I am now able to work. The cough and soreness on my chest are almost gone."

The cough, headache and soreness of muscle, following the grip are never helped by local application. Being signs of a general weakness, they are thrown off only when the whole system is toned and stimulated, so that no organ does too much nor too little. To do this is the mission of Duffy's Pure Malt Whiskey.

All who remember how it gave them clear heads, sound stomachs and a healthy circulation when they were getting over the grip in other seasons, have supplied themselves with Duffy's Pure Malt and have pointed out to their neighbors a way to avoid misery and loss of time. Is not the suggestion worth listening to.

MAY EVEN UP.

Strict Economy Will Possibly Avoid Trouble.

Apportionment Is Made to the City Funds.

Figures That Will Be of Much Interest to Taxpayers.

The question of city finances is a matter to which a number of city officials are giving considerable attention at present. A good deal of quiet calculating is being done for the purpose of ascertaining just where the city stands and what it can do during the next two months in the way of making both ends meet without finding a deficit at the close of the fiscal year.

Treasurer Gilpin completed today an apportionment of city taxes to the various funds under his control. Against these balances, however, are the outstanding demands, which are also enumerated as totals.

	Balance.	Outstanding demands.	Available.
General fund....	$13,037 52	$25,741 48	*$12,703 96
Salary fund.....	8,207 72	6,898 91	1,608 81
Street fund......	21,501 43	51 30	21,450 13
School fund.....	9,970 87	463 92	9,506 95
High School f'nd	8,160 11	923 48	7,236 63
Fire fund........	10,922 89	12,522 70	*1,599 71

*Deficit.

The amount of money at the command of the School Department, however, here figured is only that which is available from the city. The county and State apportionment is drawn upon from the County Treasurer. There is to be added to those figures as a source of revenue during the last two months of the fiscal year the income from licenses, which approximates about $18,000. Besides this will be the money secured from delinquent tax sales that has not yet been estimated as to both installments. There is about $6700 due upon the second installment. The delinquent tax upon the first has not yet been calculated.

A very fair estimate of the money available for city purposes for May and June can be secured from the tabulated statement here presented.

This will form the basis upon which estimates will be made by the city officials for the next two months. There will be several large payments to be made out of these balances, which are not now included, as the contracts under which the debts were made have not yet been completed.

It is the general opinion at the City Hall that a deficit can be avoided if a strict economy in all departments is observed. This, however, is somewhat problematical, as there can be no accurate estimate made of possible expenditures that will be necessary during the closing months of the year.

TABLES TURNED.

Alfred Brauer Appears as a Defendant.

His Case Against Tim Murry Thrown Out of Court.

Alfred Brauer, who is known at the Courthouse as the man with a "legal jag," was brought into court this morning in the custody of the Sheriff. He was very sad and when he appeared at the bar of the court he seemed to realize that he had made a grave mistake in taxing Judge Ogden's patience to the last limit.

Brauer, who was a special officer at Berkeley, was trying to send his enemy, Tim Murry, a deputy constable, to the penitentiary. He claimed that Murry had given him a clubbing at Temescal.

When the trial was called this morning District Attorney Snook moved that the case be dismissed on the ground that the evidence was insufficient to warrant a conviction. He recalled the incident of yesterday afternoon, when Brauer appeared in court in a most glorious state of intoxication, and was fined $20 for contempt and committed to jail. The case was promptly dismissed by Judge Ogden.

Brauer then became a defendant. He made an appeal to Judge Ogden and said that he was very sorry that he had caused so much trouble in court. He said that he realized that he made a bad break and he would see that it would never happen again.

Judge Ogden took the view that the dignity of the court must be upheld. He said that the offense was an aggravated one because the defendant had been a peace officer. The judge accepted the apology but he would not remit the fine.

This was a hard blow to Brauer, as he was broke. As he could not dig up the money he had to go back to prison. The man who was accused of a crime was set free and his accuser was sent to prison to serve time. A night in jail gave the officer a chance to sober up, and today he feels his disgrace. His friends are hustling for him this afternoon to raise the amount of the fine so that he will not have to spend another night in jail. The next time Brauer appears in Judge Ogden's court he will leave his jag at home.

A JURY WILL DECIDE.

Dr. Carpenter's Libel Case to Be Tried in Two Weeks.

The case of Dr. R. A. Archibald, charged by Dr. Thomas Carpenter with criminal libel, was set for trial by jury on May 17th by Judge Wood this morning in the Police Court. The case has been dragging along for a number of days since Carpenter filed his amended complaint against the Sacramento veterinary, whom he has accused of trying to defame his character by sending some hot resolutions of the State Veterinary Association to the Board of Health of this city, touching Carpenter's aspirations to become Market Inspector.

Giles Morgan's Trial.

Giles T. Morgan, charged with defrauding David Carr, ex-manager of the Galindo Hotel out of $85, will be tried in the Police Court tomorrow. A new complaint has been filed against the alleged hotel "beat," and he will have to explain why he is charged with having distributed worthless checks to pay a hotel bill.

GRAND TRUNK OFFICIAL.

Insomnia No Longer a Terror of the Hard Worker While Paine's Celery Compound Exists—Mr. N. J. Grace Speaks in Praise of It.

One of the clearest complexioned, best looking men in Boston today, says the Boston *Globe*, is a prominent New England agent of a great railroad, who uses Paine's celery compound spring and fall, and whose wife and children take it daily during the spring months.

Mr. N. J. Grace of the Grand Trunk is a modest man, one of the best-liked gentlemen in Boston, and a thorough railroad man.

When asked about the merits of Paine's celery compound he said he believed in it thoroughly, had used it himself and in his family for two years with the most gratifying results.

"My boys are using it now," he said, "and I believe there is no better spring medicine than Paine's celery compound. A touch of rheumatism first urged me to try it, and times after that, when run down, as most every one is at intervals through the year, I found that it revived the vital spark and made me feel better. Never in all my experience among men have I heard a remedy so highly spoken of. Friends of mine have used it with splendid results for dyspepsia and liver complaint, while for insomnia, a neighbor of mine tells me that it will banish it in a night."

Mr. Grace is one of the healthiest looking men to be met with in Boston today. For fully 30 years he has been with the Grand Trunk, yet in all his life he never looked better or enjoyed more freedom from pain than he does today. He is one of the thousands in this city who have reason to believe in Paine's celery compound.

TO MEND A STREET.

Disposition Made of the Sixth Ward School Foundation.

The concrete foundation of the Sixth Ward school which occasioned so much litigation is being torn down. The contractors have notified the Board of Public Works that the material is at their disposal. The board will put it to good use.

For a long time past the approach to the Webster street bridge from the foot of that street has been in a dilapidated condition. The material will be carted there and will be used placing the roadway in passable condition. The concrete will be excellent for a roadway, and Mayor Davie has requested the other members of the board to authorize the work done at once.

THE TRADESMEN.

Business Done at the Meeting of the Federation.

The regular weekly meeting of the Federated Trades was held last evening.

The Cigarmakers' Union reported that they will hold a convention in San Francisco on May 4th and 6th at Metropolitan Temple. A mass meeting will be held at the same place on May 6th, to which all friends of labor are invited.

LIQUOR STRIFE.

The Sunday Closing Ordinance to Be Handled.

Wednesday Next It Will Be Up in Committee.

Councilman Manuel Finds Himself Between Two Fires.

An interesting discussion on the Sunday closing ordinance will take place next Wednesday evening before a Committee of the Whole of the Council.

The discussion will not be indulged in exclusively by members of the Council, but will be open to those who favor the closing and those who are opposed to it. Partisans on the subject say that a great deal of eloquence may be expected.

Some time ago it was figured out that the ordinance could not be passed because there is a majority of members in the Council who are opposed to it, but at this time it is impossible to say what will be the fate of the measure.

The ordinance has been read only once in the Council, and whenever it comes up in that body again it will be either re-referred to the Ordinance and Judiciary Committee or sent on its passage to print.

As it now stands the measure proposes that saloons in this city shall be closed at 6 P. M. Saturday and remain closed until 6 A. M. Monday.

Speaking on the subject Councilman Marshall said this morning: "I am in favor of the ordinance. I am also in favor of amending it somewhat, if necessary. If it is found desirable to change the hour of closing from 6 P. M. Saturday to 10 P. M., or even to midnight, and keeping the saloons closed till Monday morning, I am in favor of doing it. I am in favor of closing at 6 P. M. also, or of closing saloons up altogether. I have examined the records and know how many people get drunk on Sunday. I know, too, that if the saloons are closed here people will go to the country and San Francisco and drink, but I do not care about that so long as they do not drink in Oakland and get drunk here on Sunday."

There are other members of the Council, however, whose minds are not so positive on the subject as Mr. Marshall's and one of those is Councilman Manuel.

The Councilman from the Third ward is in no easy frame of mind upon the subject. He has given the matter a great deal of attention. He has considered it from the standpoint of the platform upon which he was elected, touching the saloon question, and also from the standpoint of one who sees what effect the proposed enactment would have upon the city, its merchants and its trades people.

"I have given this question the closest attention," said Mr. Manuel today, "and I am at a loss to know how to act in the premises. If I do not vote for its passage, I shall displease those residents of the Third ward who are opposed to saloons. If I do not vote against the ordinance, I know I shall suffer several thousand dollars a year in my business because of those who deal with me and who will claim that I am injuring the city. I am opposed on moral grounds to saloons. I am opposed to them in principle in one way and in another way I am not. If the closing of the saloons could lessen the sale of liquor, I would favor it, but I have serious doubts in my mind on the subject. Liquor would be sold in secret and people would go to San Francisco and spend their money there, taking it away from this city. I am not what may be called a drinking man. I have liquors in my house at all times. I have whisky there, several kinds of it. But I do not think I would average one drink a day. Sometimes, I take a customer to the saloon near my store and treat him. I was born in New England, and I believe in the principles of sobriety, which my parents instilled into me, and yet I feel between two fires. I was elected on the platform of the Citizens' Municipal League, which expressed itself as against the saloon under every circumstance. People in the Third ward who have elected me to represent them are also opposed to saloons, but I do not know how many of them are of that opinion. Whether I could represent them by voting against this ordinance is a question. If I should be convinced that a majority of those people in that ward favored this Sunday saloon closing ordinance, I believe I would have to resign rather than vote on the proposition."

No Fear Now of a Failure.

Solid Backing Is Again Shown.

Fabiola's Fete Will Be a Big Success.

Renewed Energy Displayed Over the Carnival.

The Fabiola Fete, if mixed metaphor be allowed, has, like the phoenix risen from Wednesday's mud and will spread its glorious plumage with more gorgeous splendor a week from tomorrow.

No one could be blamed for feeling a bit of disappointment. The committee calculated and found that Wednesday was the only day during the two months upon which the fete could not have been held. There were some disagreeable days in the interim, but none positively bad enough to have prevented a big showing.

No one is disheartened. Quite the reverse. The magnificent showing made at the park, despite a downpour of rain that would have driven less enthusiastic mortals to shelter was indicative of the results that would have been accomplished had the weather played fair. With the fact before them that between 6000 and 7000 people braved the disagreeable climatic conditions to join in the festivities, the committee feels encouraged to branch forth on more elaborate lines than were first laid out.

Another interesting feature of the day was the fact that a majority of those who had entered to participate in the floral parade were on hand, and either reached the park with their vehicles or were notified while en route that the fete was off.

The headquarters of the association, in the Blake & Moffitt building, were a very busy scene of activity today. There is a great deal of fresh labor devolving upon the committee to rearrange the programme for the 11th, and there will be a busy week before them. There is every indication now that the list of entries in the floral parade will be very much larger than that of Wednesday. The committee has good reason to believe that it will run over 300 before the next six days are completed. They are positively assured by a large number of those who would have graced the occasion on Wednesday that they will be out in handsomer dress than ever. Many are signifying their intention to give more elaborate displays than they at first contemplated. What was exhibited on Wednesday simply astonished many who had failed to realize the possibilities of the occasion.

Among the first to come forward is Mrs. W. G. Henshaw, who has stated that she will double her display of vehicles with a corresponding increase in the decorations.

To Miss Florence Edoff belongs the honor of presenting the first entry to the new list. Yesterday she filed her card. She will ride a safety, decorated in green and yellow. Roses will be used.

Application by mail or in person for entry blanks will receive prompt attention from Secretary Pomroy. Those who send in their names, style of vehicles, colors and variety of flowers used will be duly entered without further trouble.

Mayor Davis has ordered the finest rig in a local stable for use at the parade, and will have it decorated most elaborately.

A local firm of florists received an order for 4000 roses from one individual today for decorating purposes.

It is very important that holders of tickets for admission to the park on Wednesday return them to the headquarters by Monday noon. After that date the old tickets will not be recognized under any circumstances. New tickets will be given in lieu of those now out. They will be on sale at the principal stores and at the headquarters in lots to suit on Monday.

Everything now points to a grander success than was predicted for May Day. The people have become thoroughly aroused to their ability to make a display that will equal anything ever held in this portion of the State and which will tread very closely upon the heels of the gorgeous floral festivals of Southern California. It is felt on all sides that the public pride is now stimulated to such an extent that the fete will be on a scale never dreamed of by its fondest promoters. The fact is indisputable that the turnout of Wednesday opened the eyes of a very large number of people. They will profit by the surprise and give such a display on May 11th that will simply brush into the shade the elaborate arrangements which were not culminated Wednesday.

That evening a large number of the committee met, and after a very unanimous sentiment had been enthusiastically expressed, decided to go forward with the work on broader lines than were at first contemplated. The field is open now to all, and it is believed that there will be a still greater response to the call for participants now.

Arrest in Napa of a Suspected Bicycle Thief.

A police officer went to Napa today to secure a young Swede known as "Sandy" Mahlgren, who was arrested there while trying to sell a bicycle which was stolen from Mendenhall's cyclery at Seventh and Market streets last Monday. Mahlgren, is supposed to be a man who rented a wheel under the name of P. Green and failed to return it. The police were notified and were given descriptions of the man and the wheel, which were circulated in the interior.

Dentists Will Prosecute.

The Oakland Dental Society held a meeting last night at the rooms of Dr. H. D. Boyes. Dr. J. M. Dunn, the president, was in the chair. Among those who attended the meeting were: Drs. A. F. Merriman Sr., A. F. Merriman Jr., R. H. Cool, Lewis Lane, Boyes, Sullivan, Corwin, Shuey, Allen, Taylor, Teague, Goddard, Hackett and Halsey. A special committee composed of Drs. The meeting then adjourned.

The Unitarian May Party.

The May party to be given by the ladies of the Unitarian Church tomorrow afternoon at Military Hall will be an enjoyable affair for the children and young folks, as well as their parents. The pretty ceremony of crowning a queen, the merry May-pole dance and the graceful minuet will be the main features of the entertainment. Much interest is manifested as to who will be chosen queen, and it is expected that the voting will be spirited, as each ticket holder is entitled to a vote.

FIRE BELLS.

They Clang for a Blaze in the Blake Block.

Scared Slumberers Hastened to the Streets.

Considerable Damage Ere the Flames Were Under Control.

The Blake block, at the southwest corner of Twelfth and Washington streets, was the scene of a lively fire, which was discovered in the upper story to the rear about midnight by some messenger boys from the station on Twelfth street. They noticed smoke pouring out of a rear window, and one of the lads ran to turn in an alarm, while the others went to the building to arouse the sleeping inmates.

A double alarm was sounded, which brought the fire department out in big numbers.

The upper two floors of the building, which are occupied as a lodging house, were pretty badly damaged by water. The fire was confined to the rear of the upper floor of the block. There was a great deal of smoke, that penetrated the house and made matters very uncomfortable for the occupants, who were driven out of their rooms very hurriedly when the cry of fire sounded through the building.

The occupants of the upper floors made a very hurried exit, and few stopped for anything more than enough clothing to cover themselves, as the smoke and the glare of the flames indicated that a big fire was in progress. The department got to work speedily, but a good deal of water was spilled on the building before the flames were got under control. The stores on the ground floor were not damaged except by water, which poured into some of them and injured the stocks considerably.

The fire was under control by 1.30 o'clock this morning, but an hour later some excited individual sounded another alarm, which proved to be needless.

Among the occupants of the upper floor who were so unceremoniously driven into the streets were Mrs. M. E. Jones and her daughters, Misses Clara and Pat Jones. Miss Clara Jones was one of the first to discover the flames, which she said broke out in a small laundry used as a storeroom. When she saw the fire it was located in that room, but had spread on either side through the roof.

The loss to the building was about $10,000. The adjoining Davis block on Washington street, owned by ex-Mayor W. R. Davis, was somewhat damaged.

The Blake Block was owned by Mrs. M. K. Blake and relatives. H. H. Havens, superintendent of the building, carried an insurance of $40,000, which was recently rewritten at a 60 per cent cut.

Among the occupants who suffered some loss to their effects by smoke and water, were Mrs. Ann Fields, Mr. and Mrs. Charles Rogers and Laura Holland, Mrs. M. Burns had a sick son, who was carried out of the burning building with the assistance of neighbors to a restaurant across the way.

Mrs. George Gray, Dr. and Mrs. Hess, Dr. Redfield, Misses Annie and Abbie Mer, Mrs. M. S. Root and Mabel Root, Mrs. P. G. Smith, Mrs. William Hahan and Miss R. H. Currie also had rooms on the upper floor.

The Lace House, the Oakland Shoe Store and other stores on the ground floor were somewhat damaged by water.

SOME OF THE LOSSES.

The heaviest loss by the fire last night was sustained by the Oakland Shoe Company through the seepage of water upon its stock in the main store and the basement. The stock was very large, as Manager Fairchild had just been receiving very large consignments of spring goods. Last evening there were placed in the basement ninety-one cases of shoes, and for several days past stock has been accumulating at the rate of from forty to seventy-five cases a day.

Manager Fairchild stated that he would be unable to estimate his loss until after he had met the insurance adjustors. His stock is covered by insurance in the following companies:

North British and Mercantile, $13,000; German American, $5000; Insurance Company of North America, $2000; Home Insurance Company, $2000; Sun Insurance Company, $1000; Northwestern National, London & Lancashire, $1000; London & Lancashire, $2500; Royal Insurance Company, $1000; Royal Insurance Company, $1000; Phoenix Insurance Company of Brooklyn, $1000; Scottish Union & National, $2 00; Commercial Union, $2 00; Commercial Union, $5000; Western Assurance, $2500; Phoenix of Hartford, $1000; Union Assurance, $1000; Union Assurance, $5000; Northwestern National, $5000; Home New York, $5000; Lancashire Insurance, $1000; Imperial, $1000; Fire Association of Philadelphia, $1000; German-American, $2000; German-American, $1000; Palatine, $20.0; Palatine, $1000; Imperial, $2500; Lyon, $2000; Broadway, New York, $3000; total, $89,000.

H. C. Capwell of the Lace House said the stock in his store was only damaged by smoke. No water reached that end of the building in any great quantity.

The New York Tea Company, Maison de la Mode and Prescott & Sargeant's candy store were slightly damaged by smoke and water.

DAMAGING

Durrant's Plight Is Worse.

Pointed Testimony Is Going In.

The Net Being Woven in the Lamont Case.

Attorney Quinlan Again Tells of the Meeting.

SAN FRANCISCO, May 3.—The preliminary examination of Theodore Durrant for the murder of Blanche Lamont was resumed this morning.

The result was damaging to the defendant, although his counsel tried hard to impeach the credibility of the prosecution's witnesses.

The testimony was a repitition of that given at the inquest.

Martin Quinlan, attorney, again positively identified Durrant as the man he had seen with the girl resembling Blanche Lamont going toward the church at 4:20 o'clock on the afternoon of April 3d.

David Clark, with whom Quinlan was waiting to keep an appointment, corroborated Quinlan's testimony and enabled him to fix the date precisely because of legal business they had transacted.

The janitor of the church discredited Durrant's statement to Organist King that he had been repairing gaspipes when he came down from the tower pale, sick and weak.

The janitor said the gas batteries were in good order March 31st, and there was nothing for Durrant to fix April 3d.

Severe cross-examinations only made the witnesses more positive in connecting Durrant with Blanche Lamont's murder.

BANKERS CLEARED.

The Indictments Against the Meadowcrofts Disposed Of.

CHICAGO, May 3.—Judge Windes today discharged Charles J. and Frank R. Meadowcroft, insolvent bankers, from indictment on charges of receiving money when they knew the bank was insolvent.

The point raised against the indictments was that they had expired, as no attempt has been made by the defendants during two terms of court.

The Meadowcrofts Brothers are under sentence of one year each, the case having been carried to the Supreme Court.

GATLINGS ARE READY.

Striking Miners to Get a Rattling Reception.

HUNTINGTON, W. Va., May 3.—Reports from mining districts along the Norfolk and Western are of a more serious character.

Several coal cars are reported burned along the line.

About a hundred colored miners from the Elkhorn region came to this city last night on a freight train and started east by foot.

Some think they are bent on destroying property.

A Gatling gun was sent with the militia this morning.

THE WAR WANING.

Some of the Insurance Managers' Heads in Danger.

SAN FRANCISCO, May 3.—The wholesale rate cutting among the insurance men has moderated, due it is said to directions from head offices of both the Eastern and English companies, where the rate cutting has been regarded as a species of insanity.

Inspectors are arriving at all the general offices.

After the books have been straightened, as a result of the recent feverish transactions, it is understood there will be many decapitations in the managerial departments on the Pacific Coast.

Lyman Has Quit.

How Japanese Invasion Was to Be Stopped.

No Danger, Though, as the Treaty Is to Be Ratified.

SHANGHAI, May 3.—In accordance with the special imperial edict issued to prevent the possibility of the Japanese entering Pekin, the Chinese have cut the river embankment near Pekin.

Miles of territory have been flooded and hundreds of Chinese drowned.

The British Minister to China, M. N. R. O'Connor, has gone to Pekin to make an attempt to recover from the Chinese Government the arrears of pay due the foreigners serving in the Chinese army before the outbreak of hostilities.

It is reported that the Tien Tsin German syndicate, which took up the indemnity, failed to negotiate the loan with China, and the Hongkong and Shanghai Bank is making arrangements for the loan.

THE TREATY IS ALL RIGHT.

TIEN TSIN, May 3.—The Emperor of China has decided to ratify the treaty of peace negotiated at Shimonoseki. Ratifications will be exchanged at Chee Foo, May 8th.

The Mikado ratified the treaty April 20th.

Prince Kung, President of the Chinese Council of Ministers and head of the Foreign Office, who has been absent on sick leave some time, will now resume active control of the Government departments under his supervision.

TO AWAIT THE EMPEROR'S ACTION.

YOKOHAMA, May 3.—The Japanese delegates—Count Ito, president of the Council of Ministers, and Count Myoji, the Japanese envoy—en route to Chee Foo in order to exchange ratifications of the treaty of peace, have been ordered to wait at Port Arthur until the Emperor of China ratifies the treaty.

THE DIPLOMATIC END OF IT.

PARIS, May 3.—The Japanese Minister, in an interview published in *Figaro* today, is quoted as saying that the intervention of other powers in the arrangements for peace arrived at between China and Japan is only a small difficulty.

China, he adds, has every interest to ratify the treaty and leave Japan to arrange matters with the European powers.

The Minister also said the Japanese must desire the payment of the indemnity and the commercial concessions upon the part of China to Japan.

WHAT JAPAN WILL CEDE.

PARIS, May 3.—*Le Journal Des Debats* learns from an authentic source that Japan has decided to abandon the demand for territory in the Laio Tung Peninsula except Port Arthur in return for compensation elsewhere.

LOTS OF LAWYERS.

Twenty-one Answer "Ready" in Court.

They Are All Engaged in the Turner Land Case.

An interesting case was called up for hearing before Judge Frick this morning. It was the suit of J. J. Fagan against J. F. Turner, the notorious land schemer, who has figured so prominently in the courts across the bay. The plaintiff seeks to foreclose a mortgage of $12,600. On its face the case appeared to be a simple foreclosure suit, but when the trial was called it was found that there was to be a hot legal battle, in which some of the prominent lawyers of the State were interested.

Turner was one of the shrewdest land schemers in the State. He used to purchase property and have the title placed in the name of his typewriter, Lizzie O'Donnell. When he was finally exposed it was found a hard matter to get at his property. Fagan proposed to have his money on the mortgage held by him, and he rushed into court with a suit. When his case was called, twenty-one lawyers answered and announced that they proposed to take part in the trial. It was found that the property covered by the mortgage is located in five counties, and this made additional complications.

The lawyers who answered for their clients in the case were as follows: C. P. Robinson, Morrison, Stratton and Forester for Defendant Simonds; Denson, Reddy, Campbell and Metson for Mogginson; Page, Eels and Wheeler for Hutchinson and the Esther Bank; John Yule for the Oakland Bank of Savings; W. S. Goodfellow for the German Savings and Loan Society; John M. Chretien for J. O. Rice; John B. Mhoon for the State University; and Crittenden, Foote and Van Wyck.

This was an array of legal talent that was hardly expected by Judge Frick. His Honor came to the conclusion that there was going to be a legal battle that would take up much time. The lawyers represented parties who had some interest in the disputed lands. One of the attorneys announced that he could not very well proceed with the case because his client was in jail, and he did not know when he would get out. After much discussion it was agreed that the case should be continued for a time, when all the attorneys could get ready for the trial.

Powder Mills Explode in an Eastern Town.

Fire Is Communicated to the Woods Near By.

Five Men Believed to Have Perished in the Disaster.

SOUTH ACTON, Mass., May 3.—Three mills of the American Powder Company were blow up this morning one after the other.

In fifteen minutes five persons are believed to have been killed.

The woods close by the mills were set on fire and burned fiercely, threatening the biggest storehouse containing 20,000 pounds of powder and preventing the saving of the property.

Fifty men were employed in the mills.

After the first explosion the employes in the Corning Mill, about forty in number, rushed from the building and escaped before the flames spread to the mill.

There were ten mills separated and inclosed by high board fences.

The explosion of the first mill set fire to the surrounding fence, and the flames spread to the second and third mills.

The list of dead is as follows: Charles O'Neill Jr., Maynord, Mass., unmarried; Nelson Morris, Acton, leaves a widow and several children; Frederick K. Winslow, South Acton, unmarried; Charles Estes, South Acton, unmarried; A. Estes, South Acton, leaves a widow and six children.

A STEAMER ON FIRE.

She Burns to the Water's Edge, Cargo and All.

PORT COLBORNE, Ont., May 3.—The schooner J. S. Richards, which arrived here today, reported sighting a large steamer on fire on the beach at Morgan's point.

The steamer is the N. E. Fairbank, due here last night, loaded with 90,400 bushels of corn, bound from Chicago to Ogdensburg, owned by John H. Bartow of Cleveland and valued at $30,000.

The Fairbank's mate and crew arrived here in a ship's yawl some time after the schooner Richards.

The mate states the Fairbank went ashore about 2 o'clock this morning.

All hands were put to work throwing the corn overboard.

While thus engaged fire was discovered in the forecastle forward.

The steamer burned to the water's edge.

The captain remained on shore near the wreck.

Gresham Is Better.

WASHINGTON, May 3 — Secretary Gresham passed a restless night and today is much prostrated. The acute symptoms have abated in severity and it is hoped that in the course of a few days the Secretary will have gathered strength sufficient to enable him to undertake a visit to a near-by health resort.

TRYING AGAIN.

Twenty-third Avenue Saloon Men Rampant.

They Will Try Their Luck Before the New City Council.

The old fight of residents of the Twenty-third avenue district against the licensing of saloons in that neighborhood, will be reopened tonight with a meeting of the License Committee of the Council.

Seven saloonkeepers have filed their applications for licenses with the City Clerk, and they are for locations all within the Twenty-third avenue district. The petitioners and their respective places of business are as follows: Gus Williams, 1158 Twenty-third avenue; Charles Koenig and Ben Jaines, 603 Twenty-third avenue; Franz Hudding, East Seventh street and Park avenue; R. Daemen, 1148 East Fourteenth street; L. Jurgensen, 1103 East Twelfth street; Walter A. Cook, 561 Park avenue.

Several of the petitioners have been arrested a number of times for alleged violations of the Liquor License law and a number are now conducting what are called "temperance saloons" in the places for which they seek liquor licenses.

This is the first time since the new Council was inaugurated that a concerted effort has been made by the Twenty-third avenue saloon men to secure the much coveted authorization to sell "malt, fermented or spirituous alcoholic liquors."

Their applications will undoubtedly reopen the fight that has for several years past been made by the Twenty-third avenue residents against the saloons in that neighborhood. A few years ago the battle was waged so vigorously that a number of the saloons were forced to close. There are none now in operation in that district except such as are conducted under the guise of "temperance" resorts.

It is probable that both sides will be well represented before the committee when the applications come up for consideration.

Nellie Grant's Wedding.

A Shoe Swindle.

CHICAGO, May 3.—James F. Wilson, said to be wanted in Brooklyn, L. I., for a $75,000 swindle, was arrested in Lexington, Ky., today. It is charged that he ordered large consignments of shoes on credit, sold them under the hammer and disappeared.

SUTRO KICKS.

Attorney Preston Throws Out a Strong Hint.

A Vigorous Conference Over the China Basin.

Harbor Commissioner Colnon Anxious to Settle Matters.

SAN FRANCISCO, May 3.—The Harbor Commissioners, with Governor Budd and Mayor Sutro, met with the representatives of the Valley Road this morning to consider the amendments to the lease of China Basin to the Valley Road.

Sutro attacked the terms of the lease, and incidentally the sincerity of the opposition road, saying the China Basin could be transferred to the Southern Pacific by the Valley Road in forty-eight hours.

Attorney Preston of the Valley Road said any person making such a statement was a bunk fool.

The Mayor made no response to this, but introduced a number of technical amendments preventing the Valley Road from co-operating with any other railroad.

President Colnon expressed disapproval of the apparent attempt to obstruct the new road.

He said he is anxious to see the work completed.

No conditions should be imposed on the projectors which would hamper them in the work of completing the Valley Road.

STOLEN AT THE FIRE.

Heavy Loss Sustained by Mrs. M. Fields.

Among the victims of the Blake fire on Washington street this morning is Mrs. M. Fields. She suffers a loss, however, that cannot be reached by the insurance companies. She occupied room 31 in the Blake structure, and this morning, during the excitement incident to the inspection of the building some unknown person entered the room and made away with the following articles: one diamond ring, one amethyst ring, one lady's gold hunting case watch, one heavy linked gold chain and $9 75 in cash. All these goods were of the value of $800. She reported her loss to the police, but no clew has been obtained to the robbers.

SHE WAS SPEEDY.

Wolferdingen's Wife Trotted too Fast for Him.

He Is Praying for Divorce on the Grounds of Desertion.

Charles E. Wolferdingen Jr. brought an action in the Superior Court this morning to secure a divorce from Edith Wolferdingen on the ground of desertion. A couple of years ago he was married in this city by Charles E. Snook, then Justice of the Peace. Today Mr. Snook appears in the role of an attorney to secure a divorce for the disappointed young man.

Mr. Wolferdingen has had a matrimonial experience that he will long remember. He was celebrating his honeymoon, and the future seemed to be very bright. At the end of two weeks his bride suddenly disappeared. The young man was unable to account for her disappearance and he instituted a search. It was learned that Berkeley life was too slow for her, and after she had spent a day in the whirl of San Francisco she came to the conclusion that she could never be contented to settle down in a little cottage in the college town. Wolferdingen was willing to forgive her if she would only return and agree to behave herself. The bride, however, would not yield to his requests, and said that she would rather be in the swim across the bay than a staid young matron at a Berkeley home.

Edith proved to be very capable in her way. She learned how to get fine jewels and good clothes and these things could not be given to her by her husband. Wolfendingen followed her career in San Francisco and after a short time he came to the conclusion that his bride was too speedy for him. In his complaint the young husband was very careful to shade the many faults of his young bride. He simply desires to be free and does not want a judgment for alimony entered against him. There will probably be no contest.

DENIES ANY FRAUD.

Robert Rankin Says He Did Not Enter Into a Conspiracy.

Robert D. Rankin, an insolvent debtor, has answered the charge of fraud made against him by Robert Dalziel, assignee of his estate. Dalziel asserted that Rankin had transferred some stock of the Gordon Orchard and Vineyard Company to his wife in order to prevent his creditors from securing it.

In an answer filed today Rankin denies that he has been guilty of fraud in any way. He says his wife owned the stock.

WOODLAND, Cal., May 3.—An incendiary fire in the composing room of the *Reporter* at 4 o'clock this morning, destroyed the type. The presses were uninjured.

ON A SPREE.

That Is How Begley Lost His Valuables.

The Robbery Theory is Quickly Knocked Out.

His Watch and Chain Held by a Cabman for Non-Payment.

A reporter of a San Francisco paper told a harrowing tale of highway robbery in his Oakland column this morning. The alleged victim was said to be B. C. Begley, an employe of the Standard Oil Co., who avowed he had been waylaid at Fifteenth and Webster streets by two highwaymen on Tuesday night and robbed of $36, a watch and chain and other valuables. A very little investigation exploded the story in short order.

Begley and a friend went out to make a night of it Tuesday evening, and both landed in the City Prison. The friend was locked up on a charge of drunkenness. Subsequently Begely, who was sober enough to hold himself together, and was not arrested, returned to the jail and secured his friend's release. Both chartered a Gurney, and were driven about town until the driver unceremoniously dumped them into the street for non-payment of fare.

Nothing dazed the couple hired a hack and ordered the driver to deliver them at a resort on the San Leandro road. There Begley and his friend with the hackman, who had been invited to join the party, wandered into the saloon and ordered drinks. When it came to a settlement, Begley and his friend failed to come to the center. The hackman was forced to pay the reckoning to avoid a row. When the cabdriver saw the turn of affairs and realized that he had been driving a couple of "dead beats" he was wroth.

He realized that a night's work was ruined unless he could recoup himself in some manner. He noticed the glitter of Begley's watchchain. Without any more ado he simply removed the chain and the watch on the end of it and stated he would hold the jewelry as collateral until the hack bill was settled. Begley and his friend were driven back to Oakland, sadder yet wiser men.

Wednesday night Begley drifted into the police station about midnight and told his story. Begley, however, was too late so far as the police were concerned. They had learned of his escapade the evening before and dismissed his wild robbery yarn without a word.

It is so well systematized, however, that only very slight changes were necessary."

Charles Eliot Is Very Ill.

Word has been received here from Auburn that Charles Eliot, formerly proprietor of the Henry House, is dangerously ill and that there is little hope of his recovery. Mr. Eliot retired from the hotel business about four months ago, since which time he has been very low, his ailment necessitating several surgical operations. Mr. Eliot is 73 years of ago. He is the father of Mrs. W. H. McCrimmon of this city.

A Word to Wheelmen.

On the night of the grand bicycle parade in honor of the Fabiola May Fete, the cyclery which was the principal rendezvous for large numbers of the riders who took part in the parade was the Central Cyclery in the Central Bank building on Fourteenth street opposite the Macdonough Theatre. Some of the riders wanted repairs of various kinds, while others wanted the finishing touches put to their decorations. But no matter what was wanted, B. O. Lund, the proprietor, was able to supply it because his cyclery is the largest, best supplied and best appointed in town. He has always on hand, Cleveland, Ben Hur, Tribune and Monarch wheels, and everything, while of the best, is sold at the most reasonable rates.

Ice Means Pure Food.

One of the pleasures of life is to have the solids and liquids which are served upon the table taste as it was intended they should by nature. This cannot always be the case owing to changes in the temperature of the atmosphere or the home. And yet it can always be accomplished by the expenditure of a few cents a day on ice with the Union Ice Company, of which E. S. Keeper is agent at 365 Tenth street.

Streams From Alvarado Save the Blake Block.

Steady Pressure From Start to Finish.

A Practical Refutation of Theoretical Criticism.

As a practical demonstration of the efficiency of the Alvarado water supply for the extinguishing of fires, no better proof could have been offered than the experience of the Fire Department last night at the fire in the Blake Block.

At the first tap of the bell the operating works of the Oakland Water Company at Alvarado were signaled, and before the Fire Department reached the scene the pumps were at work and the requisite pressure was thrilling through the pipes.

Every stream from the hydrants of the Oakland Water Company worked like a geyser, and in twenty minutes a deluge was pouring over the blazing building.

"I was on the roof of the Davis building," said First Assistant Chief Engineer Myles Doody, "directing a stream from an Eleventh street hydrant into the apartments where the fire originated, and before I could get away from it another stream shot up from the open lot in the rear of the building, sixty feet below, where Phoenix engine was located, wetting me from head to foot. It was one of the prettiest streams I ever saw—steady, strong and spraying like a fountain. I tell you, the pressure from the Alvarado hydrants is all right, and it was water promptly applied, properly directed and backed by sufficient force that saved Oakland from a big disaster last night."

Other members of the department corroborated Mr. Doody in every particular, and all were enthusiastic in praise of the service which the pumps at Alvarado rendered.

One laddie remarked; "We'll be sending our hooks to the junk yard if we get such a pressure right along as we had last night. There's no need for hook and ladders in Oakland when we can throw a stream eighty feet."

As an example of the force and quantity of water that can be used at a fire in the business section of Oakland from the mains of the Oakland Water Company, it may be mentioned that four engines were supplied from one hydrant, and each stream was more than equal to that thrown under similar circumstances at any other fire in the history of Oakland.

The insurance companies are more than satisfied with the results of this first experiment with the water supply of the Oakland Water Company in use at fires. As a consequence of the determination of the fact that the Oakland Company's hydrants west of Broadway are efficient for extinguishing fires, even without the aid of engines, in that district will be taken with more confidence and probably at a lower rate than in those sections of the city where the old system is still in vogue.

There was every opportunity for a comparison of the force and efficiency of the water supply of the two companies, and it is the universal verdict of experts that the water from Alvarado was in every way a more effective element in extinguishing what promised to be a disastrous conflagration than that of the old system.

"I don't think the property owners west of Broadway need fear the consequences of a fire in the same degree as those whose interests are located east of that thoroughfare," was the comment of an insurance adjuster who was early at the scene of the fire and watched every movement attentively and impartially, having no prejudice except as the interests of his company were concerned.

The results of the fire in the Blake block are eminently satisfactory as far as the protection afforded to that section of the city by the Oakland Water Company is concerned and amply refutes the falsehoods of interested theorists who have claimed that the pumping system would in practice prove futile and inefficient.

It has been demonstrated that the Oakland Water Company's system is by far the best that has ever been introduced in this city; and it has been shown that the method of laying the mains so that every pipe distributes equally by means of interconnections, so that a direct pressure on the big main operates with equal pressure throughout the entire system instantly, is the only thoroughly practical and efficient means of operating a water service for the extinguishing of fires in a big city.

It was a practical test and one that cannot be offset or controverted by any amount of sophistical argument or theoretical supposition. The fire in the Blake block was extinguished and the property saved solely by the prompt application of water that had the requisite pressure from apparatus operated on modern improved processes and with modern machinery.

Good Talent Is in the Treble Clef Concert.

A Demand for Seats for "A Country Sport."

Amusements That Are Now Making Bids for Patronage.

Twenty-one of Oakland's leading ladies have become patronesses to the concert to be given by the Treble Clef Quartet tonight in the Congregational Church, and many are making up parties to attend what now promises to be one of the finest concerts given in this city.

The ladies of the quartet—Miss Beatrice Priest, Mrs. A. M. Noble, Miss Jeannette Wilcox and Miss J. E. Birmingham have been singing together since fall under the direction of Mrs. Marriner Campbell, well known by the matrons of Oakland, and have established reputations in many of the cities of this State. San Francisco critics pronounce the work of the quartet as perfect as can be, and the blending of the voices it so good that in unison passages no one voice can be distinguished from the others.

As each of the ladies are eminent soloists, they will be heard alone as well as in the quartets. Miss Priest, so well known to Oakland audiences will sing a bolero, "Andalouse," by Calixa Lavallee, which has never been heard in this city. Mrs. Noble is a stranger to Oaklanders, being a recent comer from Stockton, and will sing Pinsuti's "J'amais tes Yeux." Miss Wilcox recently sang at one of the concerts of the Orpheus Club and made an instantaneous hit by her artistic and perfect rendition of her songs. She will sing "Come to My Heart, My Love," by Jordan. Mrs. Birmingham is another stranger here, but her wonderful low tones are bound to please. She is on the programme for two numbers, "The Quest," by Eleanor Smith, and "Oh, That We Two Were Maying," by Nevin, singing the latter an octave below.

Miss Ina Griffin, the pianist, and Miss Jean Mary Hush, the violinist, will assist the quartet, the former playing two numbers by Chopin, and the latter the overture from *Cavalliera Rusticanna*, by Mascagni.

The concert will begin at a quarter past 8 o'clock.

"A Country Sport."

Peter F. Dailey's sterling company of clever people will be seen at the Macdonough for only two nights—Monday and Tuesday of next week—in that jolliest of up-to-date farces, *A Country Sport*. Dailey has a very humorous vein and he has gathered about him such people as May Irwin, Ada Lewis, John Sparks and a host of minor comedians who are up in their business. The demand for seats is excellent and the company will enjoy two big houses.

The Scheel Concert.

Next Friday night Herr Fritz Scheel will give at the Macdonough a grand operatic concert, which will include selections from *Der Freischutz, Lohengrin, Faust, Il Trovatore*, and other masterpieces. Scheel will render for the first time in Oakland several violin solos. The concert is attracting much attention from the local musicians.

NO NUMBERER.

The Mayor Thinks the Office Not Needed.

Ordinances Discussed in Committee of the City Council.

The Ordinance and Judiciary Committee of the Council discussed at considerable length last evening the proposed ordinance which repeals the privilege extended to James P. Taylor to erect coal bunkers on the City wharf. An opinion from City Attorney Peirsol was read, which held that the action in granting Taylor the right was illegal and the Council was without power to pass the ordinance which gave him the privilege.

Mayor Davie stated that if the ordinance was not rescinded he would never permit, as Mayor of the city and president of the Board of Public Works, to allow a stick of timber to be placed upon the wharf. The ordinance was referred back to the Council without recommendation.

A communication from Mayor Davie was read, recommending that the office of City Numberer be abolished. The Mayor explained that he thought the work hitherto performed by that official could be done by the street department. He said there were three men in the street department who had little else to do but look at each other and draw their salaries.

The Board of Public Works was requested to report to the Council as to the most feasible method of stopping the overflow of water during the winter on San Pablo and Telegraph avenues and Grove streets. The board will also decide as to the best plan to dispose of city garbage.

The committee recommended that Seventeenth street be extended to the bay shore line, as outlined in an ordinance which was very fully discussed before the old Council went out of office.

O. B. Rutherford's application for a position as City Wharfinger was filed.

Mayor Davie's application for the appointment of a clerk, who shall also be City Expert, was laid over.

The State Flower Show.

Among the exhibitors from this side of the bay are the Mountain View Cemetery Association, which displays a grand collection of roses in all colors and varieties; Robert Nunnemacher, who exhibits four families of pansies; E. Gill, who has the largest collection of roses and special seedlings. There are also fine displays by the Fruit Vale Rose Company and the Yokohama Garden association.

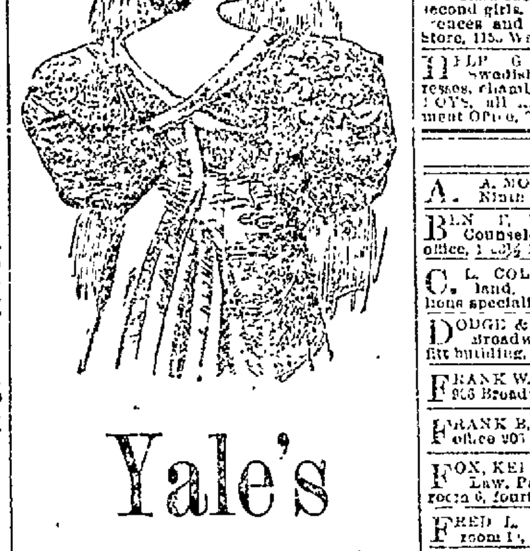

Physicians

prescribe Scott's Emulsion of Cod-liver Oil and Hypophosphites because they find their patients can tolerate it for a long time, as it does not upset the stomach nor derange the digestion like the plain oil.

Scott's Emulsion is as much easier to digest than the plain oil as milk is easier to digest than butter. Besides, the fish-fat taste is taken out of the oil, and it is almost palatable. The way sickly children, emaciated, anæmic and consumptive adults, gain flesh on Scott's Emulsion is very remarkable.

Don't be persuaded to accept a substitute!

Yale's La Freckla

Death to Freckles.

Mme. M. Yale was recently asked the question "which of her discoveries she considered the most wonderful." Her reply was as follows: La Frecla, because it unmasked my own face from a filthy mass of freckles and gave me the beautiful rose leaf complexion which you see and which has been admired by the people of every nation. Before I discovered La Frecla I was a freckled face individual disgusted with my own appearance. Today I am the envy of every woman who looks at my skin.

La Frecla will remove any case of freckles in existence and leave the skin as transparent as crystal. One or two applications removes tan and sunburn. It takes from three to nine days to destroy every trace of freckles. It is the only remedy known to the world that does this. Now is the time to use La Frecla, as it strengthens the skin, removes and prevents freckles and sunburn. $1.00 per bottle. Sold by all druggists or

FRIDAY..... ....MAY 3 1895

MRS. SARTORIS, the daughter of the late General Grant, having had a rather uncomfortable experience with a British husband, is about to wed a Confederate general. It is well that the Blue and the Gray should come together. As General Grant gave the Confederate general a sound military thrashing, there is every reason to suppose that he has profited by it, and will make a good husband for the daughter of the greatest Union soldier that ever led the armies of this country to victory.

THE election of Dr. J. K. McLean as pastor of Plymouth Avenue Church had been anticipated for some time. The church has long needed a leader. Few men would care, after building up one of the strongest churches in the country, to take in hand such a weakling. But if any man can make this little church strong, it will be the man who will become identified with it a few months hence. It is probable that some of his old parishoners will follow him to this new field. A great deal of work has been cut out for the future of this indefatigable worker and successful leader.

REV. GEORGE D. HERRON, who has been heard in Southern California, is coming back to these parts to "trouble Israel" again. A project is on foot to invite Professor Herron to lecture in one of the largest halls in San Francisco, and to make the lecture free to all workingmen. This invitation is to take the form of a popular testimonial of respect and esteem. Dr. Brown will probably have his sack of rocks ready. Professor Herron will also deliver one or more lectures in this city. There might be a sort of fraternal gathering of missiles for the occasion. "Oh that my minister were a gentleman," said a well known lady after listening to an abusive tirade against Dr. Herron.

Defining a Monetary Issue.

Comptroller Eckels, at the recent banquet of business men in Detroit, drew the lines very sharply between bimetallists and monometallists. He advocates the larger use of silver and maintains that every man who honestly believes in a sound currency will be driven into the camp of the bimetallists.

"The contention which is now made by the single silver standard adherents reduced to its last analysis is silver flatism pure and simple. It differs in degree only, and not in principle, from the contention of twenty years ago of the advocates of the unlimited issue of irredeemable greenbacks, and from that issue of the fiat currency of the period of the Continental Congress and the era of colonialism. It finds counterpart in the argument of the French revolutionists who bankrupted the citizens of France with their millions of worthless assignments and mandats; it resembles the reasoning of King Alexis of Russia when, more than three centuries ago, he impoverished his subjects and fomented civil strife by undertaking to force upon them copper copeks of the same form and value as a substitute for silver ones."

More Than a Political Organ.

The *Times-Herald* of Chicago, which formerly represented the Democratic party in that city, became an independent paper, with Republican leanings, on its purchase by Mr. Kholsaat. He invested more than a million dollars in that paper. One of the boldest strokes of business was to change its politics, or rather to place it on an independent basis. A few years ago a radical change like that would have been thought equivalent to the undoing of a newspaper. But the strong man knew his ground.

This change is another illustration of the fact that the mere party organ has much less power than formerly. It is seldom that a great newspaper has undergone such a radical change of base with so little prejudice to its interests. Just now there is no Democratic organ in Chicago, unless one has been established within a week. All the great newspapers of late years have been seeking a broader and more independent basis. They reflect the views of all parties while having a closer adherence to the principles of some one of them. One could hardly imagine, for instance, that it would be possible for the New York *Tribune* to change its base without being crippled. Yet the *Herald* has always been an independent concern and has in that way reflected the views of all parties. The *Times-Herald* of Chicago will be a power in the next Presidential canvass.

The Mayor's Improvement Policy.

If the Mayor keeps up to the key note he has already struck, there will be lively times in Oakland during his term of office. Even if some of his projects should fail, that would be better than to have no plans at all. This city has suffered for lack of any well defined policy. Nearly all citizens favor municipal improvements. They divide on the questions of what lines of progress are most desirable. The Mayor proposes to improve the small parks of the city. These are mere breathing spaces of a single block here and there. A few trees and shrubs will add somewhat to their attractiveness. These squares ought not to be overgrown with shade trees or shrubbery. They are sought as sunny openings. The more sunlight let into them the better. If the parks are converted into shrubbery gardens, their most important use would be greatly abridged. The climate here does not demand dense shade. What is most needed is sunlight in open spaces. Ornamental shrubs may be desirable, provided they do not encroach upon openings where the sun is always better than shade.

While the Mayor is turning his attention to these city squares, it might be well to call his attention to the water park of which so much has been expected and so little realized in this city. The plans of improvement originally contemplated, do not find favor with perhaps a majority of citizens. The work was stopped. But all along there has been a general agreement that Lake Merritt should be deepened without destroying any of its natural features. There was also a general agreement that there should be a broad carriage way or boulevard around the water park. The later opinion as it found expression was that this avenue should be constructed along the margin of the lake rather than in it, and that adjoining property should pay a part of the cost. These points were pretty well settled after a great deal of discussion and some harsh criticism touching earlier methods of improvement. No public improvement has ever been suggested for this city of more importance than this water park. It is just now in a condition of absolute neglect.

It would be difficult to mention a city of the size of Oakland that has not a considerable area devoted to a public park. The substitute for a park in Oakland has been accepted in the gift of Lake Merritt. It cost the city nothing to acquire possession. It is every year becoming less attractive because of neglect. There is today a considerable amount of foul drainage entering the lake that ought to be turned away. There are thousands of cubic yards of mud that should be removed. There ought to be many acres of land contiguous to the lake acquired for park purposes.

If Oakland is ever to have a park befitting the city, it is time that some plans for it were settled. If the Mayor can formulate a better plan than has been published, the sooner that is done the better. The improvements would cover a number of years. They can be made in a way not to become a burden to taxpayers. Such an improvement goes well with a better system of street improvements. Oakland today has no park. Lake Merritt has never been a substitute for one, and never will be until the mud is removed and an avenue is constructed around it. Somewhere a public park ought to fit in to the Mayor's policy of public improvements.

At Home and Abroad.

There is just now a disposition to congratulate the State on its good standing abroad. The bonds of leading cities are eagerly sought as safe investments. California has no large debt. Even municipal debts are comparatively small. It is a pity that State pride does not have a stronger business application. A few years ago certain articles were manufactured in this State that were sold abroad on the home stamp. For instance, California blankets were sold as such, and were sought in the Eastern markets. It was not necessary to put any foreign stamp on these home made goods. But Californians themselves are not overborne with State pride when they prefer Eastern made articles to those made at home. They do this in a great number of instances. For years it has been insisted that there must be a greater range of manufacturing in this State.

When a citizen starts a new factory, the first difficulty that he encounters is that he cannot get the home patronage. He does not find that local pride will turn patronage toward his establishment. He wonders why there is not some discrimination in his favor. That experience has been encountered hundreds of times in this State. There is no strong disposition to pull together. But the Californian when he goes abroad, generally talks well for his State. He dwells on its climate and resources, while his preference may be given for brands of goods that have no California stamp on them.

There are products of this State that do not need any advertising. The quality of California fruit is just about as well known abroad as at home. No one questions the quality of wheat or barley grown in the State. The climate has been well advertised. There never has been enough local pride to insist that California wine shall be sold as such and not under any false and foreign brand. Some years ago the fruit canning business was greatly injured in this State because certain canners proceeded on the theory that anything in the fruit line sent across the country, would go in Eastern markets. It came to this finally that particular brands had the call because they were known to be honest. But the fact that canned goods bore a California stamp, for a time had no weight. There was not enough State pride to make and preserve a reputation for the best.

The motto of most Californians is: "Get the best." Why should they not produce the best of everything that they have to send to market? With all these drawbacks, California has a good standing in the markets of the world. These are good lines of credit. Merchants pay their debts abroad in honest money. Bankers have the best of correspondents. Capital has been seeking the State for safe investments. The failures are comparatively few. When it is said that California stands well abroad, a pretty long bill of particulars can be given. There are not many drawbacks, nor are there a great many rash speculations. During the long business depression in the matter of credit, California has never been reproached with doubtful standing. These facts may be honestly cited in support of a reasonable State pride.

ABSOLUTELY PURE

Japan as a Competitor.

Sir Edwin Arnold has advanced the theory that the great military triumph of Japan will make her a formidable competitor of the United States and European nations. The fact is cited that there was no cotton spinning in Japan in 1875. Now that country has 500,000 spindles in operation. It is a well-known fact that the Japanese duplicate every piece of machinery imported into that country. They never buy a second invoice. There are no patent laws for protection in Japan.

An instance is cited of a young Japanese who had a place in the drafting department of an iron working establishment in San Francisco. It was found that he had taken duplicates of every drawing and working model that had been made in the establishment. Of course these were all sent to Japan, and the drawings were faithfully followed in the production of machinery in that country.

NOTES AND EXCERPTS.

The volcano of Colima was in a state of eruption April 13th, mail advices report. This volcano has been active at intervals for several years, but its fires no longer alarm surrounding farmers.

Picture-buyers in Europe get bargains if prices paid across here are to be taken as the standard of value. A large Mar Knew[illegible] sold for 18,600 francs ($3,720), and a particularly good example of Storeyer for $600 francs ($1720).

Japan in one generation has risen to the rank of a first-class military power, so far as equipments and methods are concerned, and under her instruction China may soon become equally proficient in the art of war. With 440,000,000 of these people well armed, thoroughly disciplined and thirsting for conquest, what will be the result? Europe may again be overrun by invaders from the Orient, as in the past, and our Pacific shores will doubtless some day have to be defended against the allied navies of Japan and China.—*Atlanta Constitution*.

With 15,000 live cattle and 9000 quarters of dressed beef shipped last week to England, where the price of meat has actually decreased, the existence of a combine in this country seems to be clearly proven. When the Englishmen get our American beef cheaper than an American can get it, there is a suggestion of reason in the popular demand that the trusts be brought to a realizing sense of their duties to the public.—*Detroit Free Press*.

The few stockholders of the Standard Oil Trust, having made between $50,000,000 and $75,000,000 out of the consumers of their products, should make haste to establish another university under the auspices of some church organization which holds rather to theoretical creed than to practical ethics.—*Indianapolis Journal*.

Mention was made a few days ago of the intention of a man who has a star route mail contract to carry the mail upon a bicycle. There is a good deal of significance in this. In most of the star routes the mail bags are very light and could readily be carried upon a wheel. In places where the roads are good mails could be carried far more speedily by bicycles than by horses and at considerably less expense. This idea may take root and grow and be another incentive to road improvement.—*Baltimore Sun*.

A one-page letter from "Bloody Mary" to the Queen of Hungary brought $735 at a sale of autographs in London lately. Letters of Henry VIII to the Emperor Charles V and of Queen Henrietta Maria of England to her brother, Gaston, Duke of Orleans, sold for $58 each; one of Oliver Goldsmith to Bishop Percy for $100; of Shelley to Godwin for $92; a letter by Keats, $57; by Nelson, $71; by Marlborough, $65; by the great Earl of Chatham, $65; and one by Paul Veronese, signed with his real name, Paolo Cagliari, $182.

The *Railway Age* is authority for the statement that 373 railway companies are preparing to build 20,547 miles of new line. As this equals the aggregate of the new trackage for the last four years, it looks as if there is to be a boom in railroad building.

The Old Friends.

The old friends, the old friends
We loved when we were young,
With sunshine on their faces,
And music on their tongues!
The bees are in the almond flower,
The birds renew their strain;
But the old friends, once lost to us,
Can never come again.

The old friends, the old friends!
Their brow is lined with care;
They've furrows in the faded cheek,
And silver in the hair;
But to me they are the old friends still
In youth and bloom the same,
As when we drove the flying ball,
Or shouted in the game.

The old men, the old men,
How slow they creep along!
How naughtily we scoffed at them
In days when we were young!
Their prosing and their dozing,
Their prate of days gone by,
Their shiver like an aspen leaf
If but a breath went by.

But we, who are the old men now,
Our blood is faint and chill;
We cannot leap the mighty brook,
Or climb the breakneck hill.
We maunder down the shortest cuts,
We rest on stick or stile,
And the young men half ashamed to laugh
Yet pass us with a smile.

But the young men, the young men,
Their strength is fair to see,
The straight back, and the springy stride,
The eye as falcon free;
The shout above the frolic wind
As up the hill they go,
But though so high above us now,
They soon shall be as low.

O, weary, weary drag the years
As life draws near the end;
And sadly, sadly fall the tears
For loss of love and friend.
But we'll not doubt there's good about
In all of humankind;
So here's a health before we go
To those we leave behind!

—*London Spectator*.

Upon motion the matter was referred to the Hospital Committee with power to act.

The following resolution was introduced by Supervisor Talcott, read by the clerk and unanimously adopted:

"WHEREAS, It appearing to the board that the Palomares Road District would be unreasonably burdened by the expense of repairing and protecting those certain bridges in Crow and Dublin Canon's, which said expense was recently incurred by the unanimous consent of the said Board of Supervisors, without notice in a case of great emergency under subdivision No. 4 of section 25 of the County Government act, on motion of Supervisor Talcott, seconded by Supervisor Johnston, it was ordered by the following called vote to-wit: Supervisors Church, Talcott, Johnston, Pelouze and Chairman Bailey.

That the claims of James B. Agassiz for work, labor and materials furnished in repairing and protecting said bridges as aforesaid be allowed and paid out of the Palomares Road District fund, the General Road fund and the County General fund, in the following proportions hereinafter stated:

District Attorney Snook appeared before the board and addressed them concerning stationery. He stated that it was the duty of the board to fix each year the schedule showing stationery needed in the different offices, that the last schedule adopted was very incomplete and did not show one-third of the articles needed in the different county offices, that necessarily the officials were compelled to order outside of the schedule, and that when this was done and the bills were presented, that the board should consider them and if they were satisfied that they were necessary for the proper discharge of the work of the respective offices to allow the bills. He suggested that the supervisors require the different officers to present, before the next schedule was adopted, lists of articles in the stationery line needed in their offices. Supervisor Johnston thereupon introduced the following resolution which was adopted by unanimous vote:

"*Resolved*, That all the county officers of Alameda county hand in to the clerk of the Board of Supervisors a list of articles necessary for their use in the proper discharge of the duties of their respective offices, in stationary and supplies; that said list be handed to the clerk on or before the first day of June, 1895. "*Resolved*, That from and after this date all opinions rendered to this board on all matters on which they ask of the District Attorney an opinion be rendered to this board in writing, in order that they be kept on file as a matter of record and reference, and that the request for such opinions be made in writing."

Upon motion the report of the Hospital Committee was accepted and the sum of $10 ordered paid on account.

F. E. Porter presented a protest and petition wherein he asked that the resolution of the Board of Supervisors adopted March 15, 1895, authorizing the County Assessor to print notices to taxpayers and poll tax notices in certain papers be rescinded by the board. Mr. Porter addressed the board in behalf of his protest and petition. The matter was discussed and Supervisor Pelouze moved that the protest and petition be denied; seconded by Supervisor Johnston. The roll was ordered called and the motion prevailed by the following vote:

Ayes—Supervisors Talcott, Church, Pelouze and Chairman Bailey.

Noes—None.

In the matter of Road Survey 2790 set for hearing this day, the clerk stated that the affidavit of publication of notice to non-consenting land owners had been received showing due publication.

Upon motion of Supervisor Johnston, seconded by Supervisor Church, the report of the viewers was rejected and the petition denied by unanimous vote.

County Recorder Spear, in a communication to the board, stated that Book 53 of Deeds in his office was in a very bad condition and required recopying. Ordered filed.

Supervisor Johnston introduced the following resolution, which reads as follows:

"*Resolved*, That C. O. Alexander be and he is hereby appointed by this board to copy indexes in the office of the County Recorder, commencing May 1, 1895, at a salary of $100 per month, payable out of the County General fund."

Supervisor Johnston moved the adoption of the resolution, seconded by Supervisor Church. The roll was ordered called, and the resolution was adopted by the following vote:

Ayes—Supervisors Talcott, Church, Johnston, Pelouze, Chairman Bailey.

Noes—None.

Supervisor Church introduced the following resolution:

"*Resolved*, That there be appropriated by this board, for decorating the Courthouse and Hall of Records on May 1, 1895, a sum not to exceed fifty dollars ($50), same to be paid out of the County General fund."

Supervisor Church moved the adoption of the resolution, duly seconded, and the resolution was then adopted by unanimous vote.

The applications of J. F. Barracks and C. Clundt, hearing upon which had been set for this day, were then brought up for consideration. The application of C. Clundt was taken up for consideration first.

The Judiciary Committee report recommended the granting of the permit.

The report of the Judiciary Committee was accepted and approved.

A resolution was then introduced granting to C. Clundt a permit to obtain a license.

Supervisor Pelouze moved the adoption of the resolution and the same was duly seconded, and the resolution was adopted by unanimous vote.

The application of J. F. Barracks was then taken up for consideration. The clerk stated that since the last meeting of the board a protest had been filed against the granting of a permit to J. F. Barracks, signed by John G. Skelly, Walter Renwick and four others. Thomas F. Garrity appeared for the applicants and R. B. Myers for the protestants. A majority of the Judiciary Committee presented a report recommending the granting of the application. Mr. Myers for protestants stated that he desired to introduce testimony in support of his protest. Thereupon H. S. Smith, E. M. Wood and Walter Renwick were sworn and testified in behalf of protestants, after which Frank Miller, Antone P. Frates, Martin Rohnke, L. N. Greene, J. P. Congdon, E. F. Gifford and C. B. White were called upon by applicant, were sworn and testified concerning matters at issue. Mr. Myers and Mr. Garrity then addressed the board, after which Supervisor Talcott moved that the application of John F. Barracks for permit to obtain a license be rejected, seconded by Supervisor Johnston. The roll was ordered called upon the motion to reject, which was lost by the following vote:

Ayes—Supervisors Talcott, Johnston.

Noes—Supervisors Church, Pelouze and Chairman Bailey.

Thomas Sullivan, road foreman of Niles district, addressed the board concerning digging of wells for use in street sprinkling.

Upon motion the matter was referred to the Committee of the Whole to visit and investigate next Thursday.

R. Hoppe addressed the board concerning damage done his property in the Fruit Vale Homestead Association, heretofore considered by the board. Colonel J. C. McMullen also addressed the board concerning the same matter.

After which, upon motion of Supervisor Talcott, the matter was referred to the Committee of the Whole and it was decided to visit and investigate next Friday at 9 o'clock.

Supervisor Church referred to the question of repairing the windows in the District Attorney's office.

Referred to the Building Committee with power to act.

A communication was read from M. H. de Young wherein he stated that a copy of the "History of the Midwinter Fair" would soon be presented to the board at an early date.

The communication was ordered filed.

The following resolution was introduced and unanimously adopted:

"*Resolved*, That the District Attorney be and he is hereby instructed to commence suit or suits to remove obstructions that are now on that certain public roadway known as No. 818, situate about one-fourth of a mile south of said Mountain School House in Murray Township, as mentioned in authorization of April 6th."

Supervisor Church stated that it would be necessary to have the cement on the annex to the Hall of Records painted and oiled to properly preserve it.

Upon motion, the matter was referred to the Building Committee with power to act.

County Clerk Jordan called the attention of the board to the matter of the employment of copyists. He stated that in his office several copyists employed by the board to recopy old records were employed, that he had not considered them as under his direction nor that he was responsible for their work. Some criticism has been made concerning the manner in which the work was being done by them; that in conversation with a member of the board he was informed that the board considered that he was responsible for their work and that they relied upon him to see that they were diligent and that the work was properly done. Mr. Jordan then stated that unless the board placed the copyists under his direction that he would not consider himself responsible in any way and would not certify to the bills. Supervisor Pelouze stated that the board desired that they should be under his direction.

Supervisors Church, Talcott and Johnston expressed themselves to the same effect.

Thereupon Supervisor Church introduced the following resolution which was unanimously adopted:

"*Resolved*, That from and after May 1, 1895, all copyists employed in the different county offices shall be considered as under the direction of the principal of the office in which they are working and that each county officer shall see that the work at which they are engaged is properly and diligently done, and shall report to the board any failure to properly discharge the work to which they have been assigned, and no county officer shall certify to the correctness of any bill for services unless the same is justly due."

The County Expert presented his report concerning cancellation of policies for insurance and the renewal of the same, showing that the total return premiums amounted to the sum of $872 6., and that the premium for new insurance amounted to $810.

Insurance policies as mentioned in report were placed in the hands of the Clerk, and upon motion of Supervisor Church the report of the Expert was received, accepted and filed, and the Clerk was instructed to file the policies referred to therein.

The Expert also reported that all of the companies cancelled at the regular short rates with one exception, the Palatine Insurance Company, which insisted and did retain the agent's commission amounting to $1 2..

Mr. Smith of Murray township addressed the board and stated that he is kept from going to Livermore from his place owing to the lack of a road, that to reach the county road he had to pass over private property and had much trouble on that account.

The District Attorney reported that condemnation proceedings were now in progress to have a road opened to his place.

Upon motion the matter was taken under advisement.

There being no further business to transact the board adjourned, to meet Monday, May 6, 1895, at 10 o'clock A. M.

HIRAM BAILEY,
Chairman Board of Supervisors.

Attest: FRANK C. JORDAN, Clerk.

THEIR MEMORY STIRRED.

A Remedy of Other Years, Being Needed Again, Is on Hand for Duty.

A nation threatened with war looks about for leaders, and naturally turns its eyes to veterans who have fought well in previous contests. So people attacked by disease, and seeking a remedy, inquire what has helped them in other years. The grip is here again, and in some places has assumed a form more malignant than ever. It will doubtless prowl about looking for victims until the settled weather of spring.

Now, it is a matter of medical history that, when grip was here before it was quickly thrown off by bodies that had been strengthened by a stimulant of the highest order and excellence. To hasten complete recovery after the grip Duffy's Pure Malt Whiskey was employed. That the same remedy is doing the same good work today, appears from a letter written by Mr. Thomas Barrett of Seammon, Kansas, who says:

"Having been continually coughing, with pains running through my body, and being unable to work, I took two bottles of Duffy's Pure Malt Whiskey. I am now able to work. The cough and soreness on my chest are almost gone."

The cough, headache and soreness of muscle, following the grip are never helped by local application. Being signs of a general weakness, they are thrown off only when the whole system is toned and stimulated, so that no organ does too much nor too little. To do this is the mission of Duffy's Pure Malt Whiskey.

All who remember how it gave them clear heads, sound stomachs and a healthy circulation when they were getting over the grip in other seasons, have supplied themselves with Duffy's Pure Malt and have pointed out to their neighbors a way to avoid misery and loss of time. Is not the suggestion worth listening to.

MAY EVEN UP.

Strict Economy Will Possibly Avoid Trouble.

Apportionment Is Made to the City Funds.

Figures That Will Be of Much Interest to Taxpayers.

The question of city finances is a matter to which a number of city officials are giving considerable attention at present. A good deal of quiet calculating is being done for the purpose of ascertaining just where the city stands and what it can do during the next two months in the way of making both ends meet without finding a deficit at the close of the fiscal year.

Treasurer Gilpin completed today an apportionment of city taxes to the various funds under his control. Against these balances, however, are the outstanding demands, which are also enumerated as totals.

	Balance.	Outstanding demands.	Available.
General fund	$13,687 52	$25,741 46	*$12,763 98
Salary fund	5,297 72	3,688 91	1,608 81
Street fund	21,691 43	31 30	21,450 13
School fund	9,970 57	463 92	9,506 95
High School fund	8,169 11	920 48	7,248 63
Fire fund	10,922 69	12,522 70	*1,599 71
Police fund	9,207 56	9,823 00	615 44
Free Library fund	5,402 26	73 06	5,329 20
Fire and Police Telegraph fund	2,292 71	14 00	2,278 71
Sewer fund	2,815 13	2 15	2,815 98
Street Light fund	18,590 41	5,583 00	11,007 41
Park fund	2,670 27	12 25	2,658 02

*Deficit.

The amount of money at the command of the School Department, however, here figured is only that which is available from the city. The county and State apportionment is drawn upon from the County Treasurer. There is to be added to these figures as a source of revenue during the last two months of the fiscal year the income from licenses, which approximates about $18,000. Besides this will be the money secured from delinquent tax sales that has not yet been estimated as to both installments. There is about $6700 due upon the second installment. The delinquent tax upon the first has not yet been calculated.

A very fair estimate of the money available for city purposes for May and June can be secured from the tabulated statement here presented.

This will form the basis upon which estimates will be made by the city officials for the next two months. There will be several large payments to be made out of these balances, which are not now included, as the contracts under which the debts were made have not yet been completed.

It is the general opinion at the City Hall that a deficit can be avoided if a strict economy in all departments is observed. This, however, is somewhat problematical, as there can be no accurate estimate made of possible expenditures that will be necessary during the closing months of the year.

TABLES TURNED.

Alfred Brauer Appears as a Defendant.

His Case Against Tim Murry Thrown Out of Court.

Alfred Brauer, who is known at the Courthouse as the man with a "legal jag," was brought into court this morning in the custody of the Sheriff. He was very sad and when he appeared at the bar of the court he seemed to realize that he had made a grave mistake in taxing Judge Ogden's patience to the last limit.

Brauer, who was a special officer at Berkeley, was trying to send his enemy, Tim Murry, a drunken constable, to the penitentiary. He claimed that Murry had given him a clubbing at Temescal.

When the trial was called this morning District Attorney Snook moved that the case be dismissed on the ground that the evidence was insufficient to warrant a conviction. He recalled the incident of yesterday afternoon, when Brauer appeared in court in a most glorious state of intoxication, and was fined $20 for contempt and committed to jail. The case was promptly dismissed by Judge Ogden.

Brauer then became a defendant. He made an appeal to Judge Ogden and said that he was very sorry that he had caused so much trouble in court. He said that he realized that he made a bad break and he would see that it would never happen again.

Judge Ogden took the view that the dignity of the court must be upheld. He said that the offense was an aggravated one because the defendant had been a peace officer. The judge accepted the apology but he would not remit the fine.

This was a hard blow to Brauer, as he was broke. As he could not dig up the money he had to go back to prison. The man who was accused of a crime was set free and his accuser was sent to prison to serve time. A night in jail gave the officer a chance to sober up, and today he feels his disgrace. His friends are hustling for him this afternoon to raise the amount of the fine so that he will not have to spend another night in jail. The next time Brauer appears in Judge Ogden's court he will leave his jag at home.

A JURY WILL DECIDE.

Dr. Carpenter's Libel Case to Be Tried in Two Weeks.

The case of Dr. R. A. Archibald, charged by Dr. Thomas Carpenter with criminal libel, was set for trial by jury on May 17th by Judge Wood this morning in the Police Court. The case has been dragging along for a number of days since Carpenter filed his amended complaint against the Sacramento veterinary, whom he has accused of trying to defame his character by sending some hot resolutions of the State Veterinary Association to the Board of Health of this city, touching Carpenter's aspirations to become Market Inspector.

Giles Morgan's Trial.

Giles T. Morgan, charged with defrauding David Carr, ex-manager of the Galindo Hotel out of $35, will be tried in the Police Court tomorrow. A new complaint has been filed against the alleged hotel "beat," and he will have to explain why he is charged with having distributed worthless checks to pay a hotel bill.

GRAND TRUNK OFFICIAL.

Insomnia No Longer a Terror of the Hard Worker While Paine's Celery Compound Exists—Mr. N. J. Grace Speaks in Praise of It.

One of the clearest complexioned, best looking men in Boston today, says the Boston *Globe*, is a prominent New England agent of a great railroad, who uses Paine's celery compound spring and fall, and whose wife and children take it daily during the spring months.

Mr. N. J. Grace of the Grand Trunk is a modest man, one of the best-liked gentlemen in Boston, and a thorough railroad man.

When asked about the merits of Paine's celery compound he said he believed in it thoroughly, had used it himself and in his family for two years with the most gratifying results.

"My boys are using it now," he said, "and I believe there is no better spring medicine than Paine's celery compound. A touch of rheumatism first urged me to try it, and times after that, when run down, as most every one is at intervals through the year, I found that it revived the vital spark and made me feel better. Never in all my experience among men have I heard a remedy so highly spoken of. Friends of mine have used it with splendid results for dyspepsia and liver complaint, while for insomnia, a neighbor of mine tells me that it will banish it in a night."

Mr. Grace is one of the healthiest looking men to be met with in Boston today. For fully 30 years he has been with the Grand Trunk, yet in all his life he never looked better or enjoyed more freedom from pain than he does today. He is one of the thousands in this city who have reason to believe in Paine's celery compound.

TO MEND A STREET.

Disposition Made of the Sixth Ward School Foundation.

The concrete foundation of the Sixth Ward school which occasioned so much litigation is being torn down. The contractors have notified the Board of Public Works that the material is at their disposal. The board will put it to good use.

For a long time past the approach to the Webster street bridge from the foot of that street has been in a dilapidated condition. The material will be carted there and will be used placing the roadway in passable condition. The concrete will be excellent for a roadway, and Mayor Davie has requested the other members of the board to authorize the work done at once.

THE TRADESMEN.

Business Done at the Meeting of the Federation.

The regular weekly meeting of the Federated Trades was held last evening.

The Cigarmakers' Union reported that they will hold a convention in San Francisco on May 4th and 6th at Metropolitan Temple. A mass meeting will be held at the same place on May 6th, to which all friends of labor are invited.

The Bakers reported that the boycott on the Log Cabin Bakery is being successfully enforced. They declared they will carry on the fight for a year if necessary.

The Clerks' Association reported that the Merchants' Exchange will give them their moral support in the Sunday closing movement.

Delegates Forrest, Powers and Manning, with President Golder, will visit the proprietors of the stores that open on Sundays and endeavor to induce them to abandon the practice.

W. A. Thompson, a delegate to the Federation, was indorsed for the position of Plumbing and Sanitary Inspector.

MERCHANTS MEET.

Business Transacted by the Exchange.

The Merchants' Exchange last evening heard a report from License Inspector Mitchell upon the peddling question. The inspector stated that he had been enabled with the assistance of the police department to make excellent progress in preventing peddlers from selling without a license.

A committee consisting of W. V. Witcher, F. Girard, F. Scheidr, George E. Fairchild and George L. Fish was appointed to canvass for new members.

A financial committee consisting of Messrs. Samuels, Meese and Cushing was appointed.

A. Bernstein addressed the exchange in favor of Sunday closing. He was informed the matter would be considered by a committee very soon.

Twenty-two directors for the ensuing term will be elected next Tuesday evening. On Thursday evening the new board will elect its officers.

Will Go to Fresno.

Ben Wright of this city and Colonel J. R. Bowler have leased the Grand Central Hotel at Fresno and will open it about June 1st with a banquet and ball. Mr. Wright will give up the Galindo Hotel and make his future home in Fresno. Colonel Bowler managed the Hotel Vendome at San Jose for a season.

LIQUOR STRIFE.

The Sunday Closing Ordinance to Be Handled.

Wednesday Next It Will Be Up in Committee.

Councilman Manuel Finds Himself Between Two Fires.

An interesting discussion on the Sunday closing ordinance will take place next Wednesday evening before a Committee of the Whole of the Council.

The discussion will not be indulged in exclusively by members of the Council, but will be open to those who favor the closing and those who are opposed to it. Partisans on the subject say that a great deal of eloquence may be expected.

Some time ago it was figured out that the ordinance could not be passed because there is a majority of members in the Council who are opposed to it, but at this time it is impossible to say what will be the fate of the measure.

The ordinance has been read only once in the Council, and whenever it comes up in that body again it will be either re-referred to the Ordinance and Judiciary Committee or sent on its passage to print.

As it now stands the measure proposes that saloons in this city shall be closed at 6 P. M. Saturday and remain closed until 6 A. M. Monday.

Speaking on the subject Councilman Marshall said this morning: "I am in favor of the ordinance. I am also in favor of amending it somewhat, if necessary. If it is found desirable to change the hour of closing from 6 P. M. Saturday to 10 P. M., or even to midnight, and keeping the saloons closed till Monday morning, I am in favor of doing it. I am in favor of closing at 6 P. M. also, or of closing saloons up altogether. I have examined the records and know how many people get drunk on Sunday. I know, too, that if the saloons are closed here people will go to the country and San Francisco and drink, but I do not care about that so long as they do not drink in Oakland and get drunk here on Sunday."

There are other members of the Council, however, whose minds are not so positive on the subject as Mr. Marshall's and one of these is Councilman Manuel.

The Councilman from the Third ward is in no easy frame of mind upon the subject. He has given the matter a great deal of attention. He has considered it from the standpoint of the platform upon which he was elected, touching the saloon question, and also from the standpoint of one who sees what effect the proposed enactment would have upon the city, its merchants and its trades people.

"I have given this question the closest attention," said Mr. Manuel today, "and I am at a loss to know how to act in the premises. If I do not vote for its passage, I shall displease those residents of the Third ward who are opposed to saloons. If I do not vote against the ordinance, I know I shall suffer several thousand dollars a year in my business because of those who deal with me and who will claim that I am injuring the city. I am opposed on moral grounds to saloons. I am opposed to them in principle in one way and in another way I am not. If the closing of the saloons could lessen the sale of liquor, I would favor it, but I have serious doubts in my mind on the subject. Liquor would be sold in secret and people would go to San Francisco and spend their money there, taking it away from this city. I am not what may be called a drinking man. I have liquors in my house at all times. I have whisky there, several kinds of it. But I do not think I would average one drink a day. Sometimes, I take a customer to the saloon near my store and treat him. I was born in New England, and I believe in the principles of sobriety, which my parents instilled into me, and yet I feel between two fires. I was elected on the platform of the Citizens' Municipal League, which expressed itself as against the saloon under every circumstance. People in the Third ward who have elected me to represent them are also opposed to saloons, but I do not know how many of them are of that opinion. Whether I could represent them by voting against this ordinance is a question. If I should be convinced that a majority of those people in that ward favored this Sunday saloon closing ordinance, I believe I would have to resign rather than vote on the proposition."

When You Come "To Town"

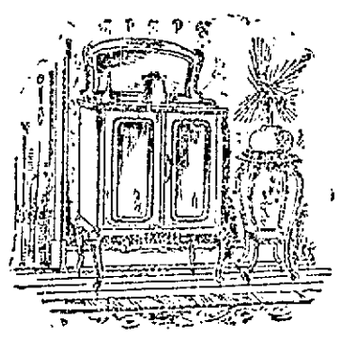

If you have furniture of any kind to buy don't drop into the first store you see, either "at home" or in San Francisco. You will find it profitable to go where you get so much the greater selection and so much the more moderate prices. Try it and see for yourself.

Comfort Couches as low as $7, in plain, Blue Denim—that's one "low price." Many others.

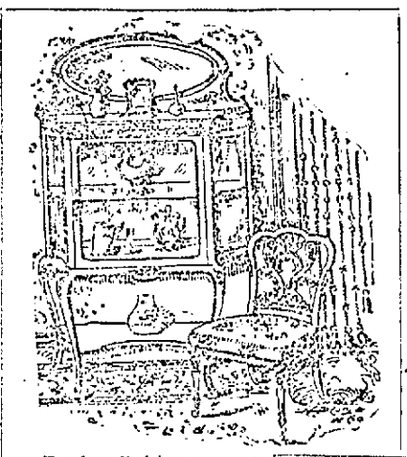

WE WANT YOUR TRADE

You can see our delivery wagons very frequently in your locality. We want you to see them there every day—and if these advertisements can only convince you of how well we can suit you, how much we can save you, our wish will be gratified in brief time indeed.

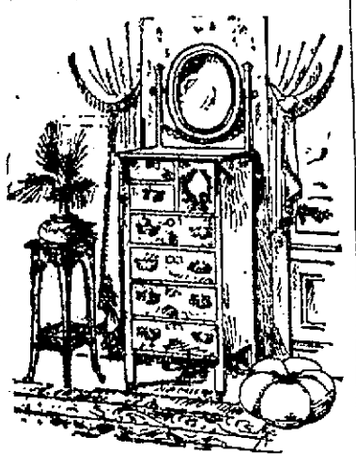

Every store has some MUSIC CABINETS to offer you. We have such a great number.

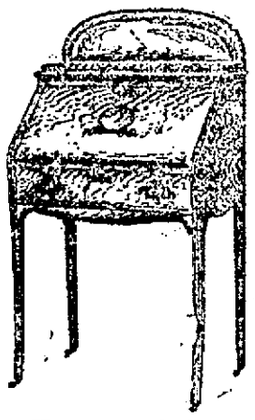

IT MATTERS NOT WHETHER YOU ARE GOING TO BUY, NOW, COME AND SEE WHAT WE CAN DO FOR YOU ANYHOW.

Just one picture of a Chiffonier or Shaving Stand, three score or more in the store.

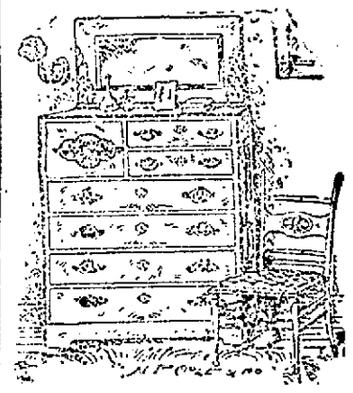

How many desks are shown you in your "local store," ten or a hundred?

You can deal with us just as if you lived "in town." If the piece isn't just right, we'll send for, change it, make it suit. No extra charge for delivery in Oakland, Berkeley or Alameda.

Can you get a Rocker that "just suits?" Perhaps we have it—come and see.

For every picture we can show we have a score of other pieces on the floors.

No Fear Now of a Failure.

Solid Backing Is Again Shown.

Fabiola's Fete Will Be a Big Success.

Renewed Energy Displayed Over the Carnival.

The Fabiola Fete, if mixed metaphor be allowed, has, like the phoenix risen from Wednesday's mud and will spread its glorious plumage with more gorgeous splendor a week from tomorrow.

No one could be blamed for feeling a bit of disappointment. The committee calculated and found that Wednesday was the only day during the two months upon which the fete could not have been held. There were some disagreeable days in the interim, but none positively bad enough to have prevented a big showing.

No one is disheartened. Quite the reverse. The magnificent showing made at the park, despite a downpour of rain that would have driven less enthusiastic mortals to shelter was indicative of the results that would have been accomplished had the weather played fair. With the fact before them that between 6000 and 7000 people braved the disagreeable climatic conditions to join in the festivities, the committee feels encouraged to branch forth on more elaborate lines than were first laid out.

Another interesting feature of the day was the fact that a majority of those who had entered to participate in the floral parade were on hand, and either reached the park with their vehicles or were notified while en route that the fete was off.

The headquarters of the association, in the Blake & Moffitt building, were a very busy scene of activity today. There is a great deal of fresh labor devolving upon the committee to rearrange the programme for the 11th, and there will be a busy week before them. There is every indication now that the list of entries in the floral parade will be very much larger than that of Wednesday. The committee has good reason to believe that it will run over 300 before the next six days are completed. They are positively assured by a large number of those who would have graced the occasion on Wednesday that they will be out in handsomer dress than ever. Many are signifying their intention to give more elaborate displays than they at first contemplated. What was exhibited on Wednesday simply astonished many who had failed to realize the possibilities of the occasion.

Among the first to come forward is Mrs. W. G. Henshaw, who has stated that she will double her display of vehicles with a corresponding increase in the decorations.

To Miss Florence Edoff belongs the honor of presenting the first entry to the new list. Yesterday she filed her card. She will ride a safety, decorated in green and yellow. Roses will be used.

Application by mail or in person for entry blanks will receive prompt attention from Secretary Pomroy. Those who send in their names, style of vehicles, colors and variety of flowers used will be duly entered without further trouble.

Mayor Davis has ordered the finest rig in a local stable for use at the parade, and will have it decorated most elaborately.

A local firm of florists received an order for 4000 roses from one individual today for decorating purposes.

It is very important that holders of tickets for admission to the park on Wednesday return them to the headquarters by Monday noon. After that date the old tickets will not be recognized under any circumstances. New tickets will be given in lieu of those now out. They will be on sale at the principal stores and at the headquarters in lots to suit on Monday.

Everything now points to a grander success than was predicted for May Day. The people have become thoroughly aroused to their ability to make a display that will equal anything ever held in this portion of the State and which will tread very closely upon the heels of the gorgeous floral festivals of Southern California. It is felt on all sides that the public pride is now stimulated to such an extent that the fete will be on a scale never dreamed of by its fondest promoters. The fact is indisputable that the turnout of Wednesday opened the eyes of a very large number of people. They will profit by the surprise and give such a display on May 11th that will simply brush into the shade the elaborate arrangements which were not culminated Wednesday.

That evening a large number of the committee met, and after a very unanimous sentiment had been enthusiastically expressed, decided to go forward with the work on broader lines than were at first contemplated. The field is open now to all, and it is believed that there will be a still greater response to the call for participants now.

HOW'S THE WEATHER?

Interesting Data for the Month of April.

During the month 2.301 inches of rain fell, making a total since July 1, 1894, of 37.947 inches, as compared with 23.532 inches for a corresponding period the previous year. The number of clear days during the month were 19; fair 4, cloudy 7; rain fell on 5 days.

Arrest in Napa of a Suspected Bicycle Thief.

A police officer went to Napa today to secure a young Swede known as "Sandy" Mahlgren, who was arrested there while trying to sell a bicycle which was stolen from Mendenhall's cyclery at Seventh and Market streets last Monday. Mahlgren, is supposed to be a man who rented a wheel under the name of P. Green and failed to return it. The police were notified and were given descriptions of the man and the wheel, which were circulated in the interior.

Dentists Will Prosecute.

The Oakland Dental Society held a meeting last night at the rooms of Dr. H. D. Boyes. Dr. J. M. Dunn, the president, was in the chair. Among those who attended the meeting were: Drs. A. F. Merriman Sr., A. F. Merriman Jr., R. H. Cool, Lewis Lane, Boyes, Sullivan, Corwin, Shuey, Allen, Taylor, Teague, Goddard, Hackett and Halsey. A special committee composed of Drs. Lane, Sullivan, Taylor and Halsey reported that Drs. C. Covalt, Simon Horneff and P. M. Parsons are practicing dentistry without a license. It was resolved to have them prosecuted. The meeting then adjourned.

The Unitarian May Party.

The May party to be given by the ladies of the Unitarian Church tomorrow afternoon at Military Hall will be an enjoyable affair for the children and young folks, as well as their parents. The pretty ceremony of crowning a queen, the merry May-pole dance and the graceful minuet will be the main features of the entertainment. Much interest is manifested as to who will be chosen queen, and it is expected that the voting will be spirited, as each ticket holder is entitled to a vote.

FIRE BELLS.

They Clang for a Blaze in the Blake Block.

Scared Slumberers Hastened to the Streets.

Considerable Damage Ere the Flames Were Under Control.

The Blake block, at the southwest corner of Twelfth and Washington streets, was the scene of a lively fire, which was discovered in the upper story to the rear about midnight by some messenger boys from the station on Twelfth street. They noticed smoke pouring out of a rear window, and one of the lads ran to turn in an alarm, while the others went to the building to arouse the sleeping inmates.

A double alarm was sounded, which brought the fire department out in big numbers.

The upper two floors of the building, which are occupied as a lodging house, were pretty badly damaged by water. The fire was confined to the rear of the upper floor of the block. There was a great deal of smoke, that penetrated the house and made matters very uncomfortable for the occupants, who were driven out of their rooms very hurriedly when the cry of fire sounded through the building.

The occupants of the upper floors made a very hurried exit, and few stopped for anything more than enough clothing to cover themselves, as the smoke and the glare of the flames indicated that a big fire was in progress. The department got to work speedily, but a good deal of water was spilled on the building before the flames were got under control. The stores on the ground floor were not damaged except by water, which poured into some of them and injured the stocks considerably.

The fire was under control by 1.30 o'clock this morning, but an hour later some excited individual sounded another alarm, which proved to be needless.

Among the occupants of the upper floor who were so unceremoniously driven into the streets were Mrs. M. E. Jones and her daughters, Misses Clara and Pet Jones. Miss Clara Jones was one of the first to discover the flames, which she said broke out in a small laundry used as a storeroom. When she saw the fire it was located in that room, but had spread on either side through the roof.

The loss to the building was about $10,000. The adjoining Davis block on Washington street, owned by ex-Mayor W. R. Davis, was somewhat damaged.

The Blake Block was owned by Mrs. M. K. Blake and relatives. H. H. Havens, superintendent of the building, carried an insurance of $40,000, which was recently rewritten at a 60 per cent cut.

Among the occupants who suffered some loss to their effects by smoke and water, were Mrs. Ann Fields, Mr. and Mrs. Charles Rogers and Laura Holland. Mrs. M. Burns had a sick son, who was carried out of the burning building with the assistance of neighbors to a restaurant across the way.

Mrs. George Gray, Dr. and Mrs. Hess, Dr. Redfield, Misses Annie and Abbie Mee, Mrs. M. S. Root and Mabel Root, Mrs. F. C. Smith, Mrs. William Hahon and Miss R. H. Carrie also had rooms on the upper floor.

The Lace House, the Oakland Shoe Store and other stores on the ground floor were somewhat damaged by water.

SOME OF THE LOSSES.

The heaviest loss by the fire last night was sustained by the Oakland Shoe Company through the seepage of water upon its stock in the main store and the basement. The stock was very large, as Manager Fairchild had just been receiving very large consignments of spring goods. Last evening there were placed in the basement ninety-one cases of shoes, and for several days past stock has been accumulating at the rate of from forty to seventy-five cases a day.

Manager Fairchild stated that he would be unable to estimate his loss until after he had met the insurance adjusters. His stock is covered by insurance in the following companies:

North British and Mercantile, $13,000; German American, $5000; Insurance Company of North America, $2000; Home Insurance Company, $2000; Sun Insurance Company, $1000; Northwestern National, London & Lancashire, $1000; London & Lancashire, $3000; London & Lancashire, $6500; Royal Insurance Company, $1000; Royal Insurance Company, $4000; Phoenix Insurance Company of Brooklyn, $1000; Scottish Union & National, $6000; Commercial Union, $5000; Commercial Union, $5000; Western Assurance, $2500; Phœnix of Hartford, $4000; Union Assurance, $1000; Union Assurance, $5000; Northwestern National, $5000; Home New York, $5000; Milwaukee Mechanics', $1000; Imperial, $1000; Fire Association of Philadelphia, $1000; German-American, $2000; German-American, $1000; Palatine, $20.0; Palatine, $1000; Imperial, $2500; Lyon, $2500; Broadway, New York, $5000; total, $99,000.

H. C. Capwell of the Lace House said the stock in his store was mainly damaged by smoke. No water reached that end of the building in any great quantity.

The New York Tea Company, Maison de la Mode and Prescott & Sargeant's candy store were slightly damaged by smoke and water.
